OBREGON TO CONFERENCE

Major Generals Scott and Funston Tonight Will Meet Carranza War Minister in Conference On Military Questions Connected With the American Punitive Expedition.

(ASSOCIATED PRESS TELEGRAM) El Paso, April 28.—General Alvaro Obregon, minister of war of the Mexican de facto government is in Juarez today awaiting to confer with Major Generals Scott and Funston on the military questions that are involved in the American punitive expedition into Mexico.

General Obregon, accompanied by General Jacinto Trevino, military governor of Chihuahua, General Samuel S. Santos, Governor Enriquez of Chihuahua and Presidente Jose De Luz Herrera of Parral, reached Juarez on a special train this morning.

Generals Scott and Funston are due to reach here tonight when it is expected that arrangements will be made for the first conference to be held in Juarez tomorrow.

The Mexican minister of war held several conferences today with the military and civil officers of the de facto government of Chihuahua in which every phase of the situation was discussed so that that the presentation of the Mexican proposals could be made to Generals Scott and Funston.

General Obregon made it clear that the Carranza government was in position to thoroughly police Northern Chihuahua and that the American troops having fulfilled their announced purpose of breaking up the Villa bands, should withdraw.

All Juarez turned out to make General Obregon and his party welcome. Troops lined both sides of Calle Comercio. The Juarez military band played its liveliest airs.

General Gabriel Gavira, commander of Juarez with his staff and Andres Garcia, Mexican consul to El Paso, officially welcomed General Obregon.

The third section of General Obregon's train bearing General Luis Gutierrez, military governor of Chihuahua state, was derailed south of Juarez and several passengers were reported injured. It is not known whether General Gutierrez was hurt.

General Obregon reached Juarez on the second section of the special train.

The protective presence in Northern Mexico of 40,000 Carranza troops will be the most potent argument brought to the border today by General Alvaro Obregon, Mexican secretary of war, in his effort to convince Generals Hugh L. Scott and Frederick Funston that the American expeditionary forces should be withdrawn from Mexican soil.

Mexican officials here believe that General Obregon will assure the Americans that when the last United States troops cross to the north of the international boundary the de facto army will form behind them a line of patrols that will render future bandit raids on the border impossible.

Added to this, they say, he will repeat the declaration he made at Chihuahua City that the chiefs of the Constitutionalist cause are in perfect harmony and amply able to control the small bands of bandits still at large.

There is no indication here as to what answer the Mexican minister of war will make to the apparent intention of the Washington government to maintain General Pershing's columns in Chihuahua until such time as General Carranza's forces have proved their ability to wipe out the bandit menace.

It is pointed out, however, that it is unlikely he will take any action that would precipitate a break with the United States, since intervention is said to be the last alternative desired by the Carranza adherents.

On the other hand, it is expected General Obregon will assert that the United States should hesitate about taking any steps as leaving the troops in Mexico, that would endanger the stability of the de facto government, which Mexican officials contend, is slowly bringing order out of chaos in the devastated country.

Observers here of Mexican affairs expect concessions from both sides which will result in a temporary patrol by General Pershing's troops of at least a portion of the territory they now occupy pending an adequate campaign of Carranza troops against the scattered bandit groups of southern and western Chihuahua and Durango.

A military reception was arranged for General Obregon by General Gavira, commander of the Juarez

GERMAN PROTESTS ANGER POMERENE

Senator Atlee Pomerene.

Senator Pomerene of Ohio, one of the administration leaders in the senate, has been deluged with thousands of telegrams from pro-Germans urging him to do his utmost to maintain peace with Germany at any price. Other senators and representatives have also been showered. "I believe that a backfire of resentment will follow the recovery from the sudden shock of all these telegrams," says Pomerene.

SENTIMENT

IN GREECE OVERWHELMING IN FAVOR OF FORMER PREMIER VENIZELLOS.

War With Bulgaria Seems Inevitable—Right Press Censorship Keeps World in Ignorance.

(ASSOCIATED PRESS TELEGRAM) Athens, Sunday, April 23, via Rome and Paris, April 28, 12:25 a. m.—An impartial observer who has just returned from a tour of all the mainland of Greece reports an amazing spread of sentiment in favor of Eleftherios Venizelos, the former premier, even in conservative Peloponnesus. The great efforts of the government to suppress the demonstrations and meetings of the Venizelos adherents has awakened deep resentment among the people and there is a growing determination to oust the present government even if it be necessary to resort to arms.

The Associated Press learns from uncontested authority that several leaders of the revolution of 1909 are actively engaged in planning a similar attempt although Venizelos deprecated this and advises instead the practice of patience and use of legal methods. On the other hand, the recent plot against him failed only by a hair's breadth, owing to the extraordinary devotion and watchfulness of his followers.

The weakness of the opponents of the former premier lies in the discontent among the rank and file of the army who largely attend the meetings of the Venizelos followers and who are openly dissatisfied and declare that a purposeless mobilization is depriving the Venizelos adherents of their support. It is stated in well informed quarters that so many soldiers have returned to their homes without permission that the general staff is unable to treat them as deserters and is obliged to grant them leave which they already have taken.

Neutral diplomatic observers who are in a position to judge declare that the present situation cannot last sixty days longer and that unless an allied offensive against Bulgaria relieves the tension by sweeping the Greeks into war with their ancient enemies, a political cataclysm in Greece is inevitable.

A most rigid, triple censorship of all press telegrams keeps the world generally ignorant of exact conditions in Greece.

O. S. U. STUDENTS ARE TO "GET OUT" COLUMBUS PAPER

(ASSOCIATED PRESS TELEGRAM) Columbus, April 28.—Students of the school of journalism at Ohio State University will receive their first practical newspaper experience tomorrow, when they will "get out" the four editions of one of the Columbus afternoon daily papers. All of the editorial work will be done by the students, some forty in number.

The students will cover "beats," handle telegraph news, obtain pictures and cartoons, write society and sporting news and "make up" the paper. This is said to be the first time that students of a journalism school have been entrusted with getting out a daily city newspaper.

Mr. and Mrs. Howard L. Jenkins left for Springfield, today where they will spend a few days the guests of Mr. Jenkins' parents.

NAVAL EVENTS TO FRONT

British Battleship Sunk By Striking a Mine, and German Submarine Sent to the Bottom By English—Indications That Germans Are Planning to Launch Another Offense.

Naval events are again to the front in the war news with today's announcement that the British battleship Russell has been sunk in the Mediterranean by striking a mine and that a German submarine has been sent to the bottom by the British off the English coast.

There were more than 800 men on board the Russell and about 124 are missing.

Eighteen men on the German submarine were captured.

The Russell was comparatively an old vessel, having been completed in 1903. She displaced 14,000 tons and her heavy guns were four of the 12-inch type. She is the eleventh British battleship to be lost during the war.

Another contingent of Russian troops has reached Marseilles for service on the western front. This makes the third contingent whose arrival the French military authorities have permitted to be reported. As in previous instances, the strength of the contingent is withheld, but news dispatches from Marseilles have indicated a belief that as many as 250,000 Russian troops would probably be transferred this spring to the Franco-Belgian front.

For the first time in many days the French official statement mentions no notable activity, even by the artillery, in the Verdun region. Only an intermittent bombardment in the vicinity of Avocourt and Enes, to the west of the Meuse, is recorded.

Along the rest of the French front there were no events of importance. German efforts for the present seem to be directed against the British along the line in Northern France and Belgium, where London last night reported activity that seemed to observers there to indicate that the Germans might be about to launch an offensive as determined as that directed against Verdun.

Ambassador Gerard left Berlin last night for German army headquarters where he will have an audience with Emperor William, who with his advisers is considering the reply to the American note on submarine warfare.

MUNITIONS

TRAFFIC OF UNITED STATES WITH BELLAGERENTS ASSAILED AND DEFENDED

By Eminent Legal Authorities Before American Society of International Law.

(ASSOCIATED PRESS TELEGRAM) Washington, April 28.—America's munition traffic was analyzed by eminent legal authorities today before the American Society of International Law. It was both assailed and defended. Trade in war munitions was declared by most of the speakers to be legal; by others its neutral morality was questioned.

The two principal addresses today were by Professor James W. Garner of the University of Illinois, and Professor Philip Marshall Brown of Princeton University.

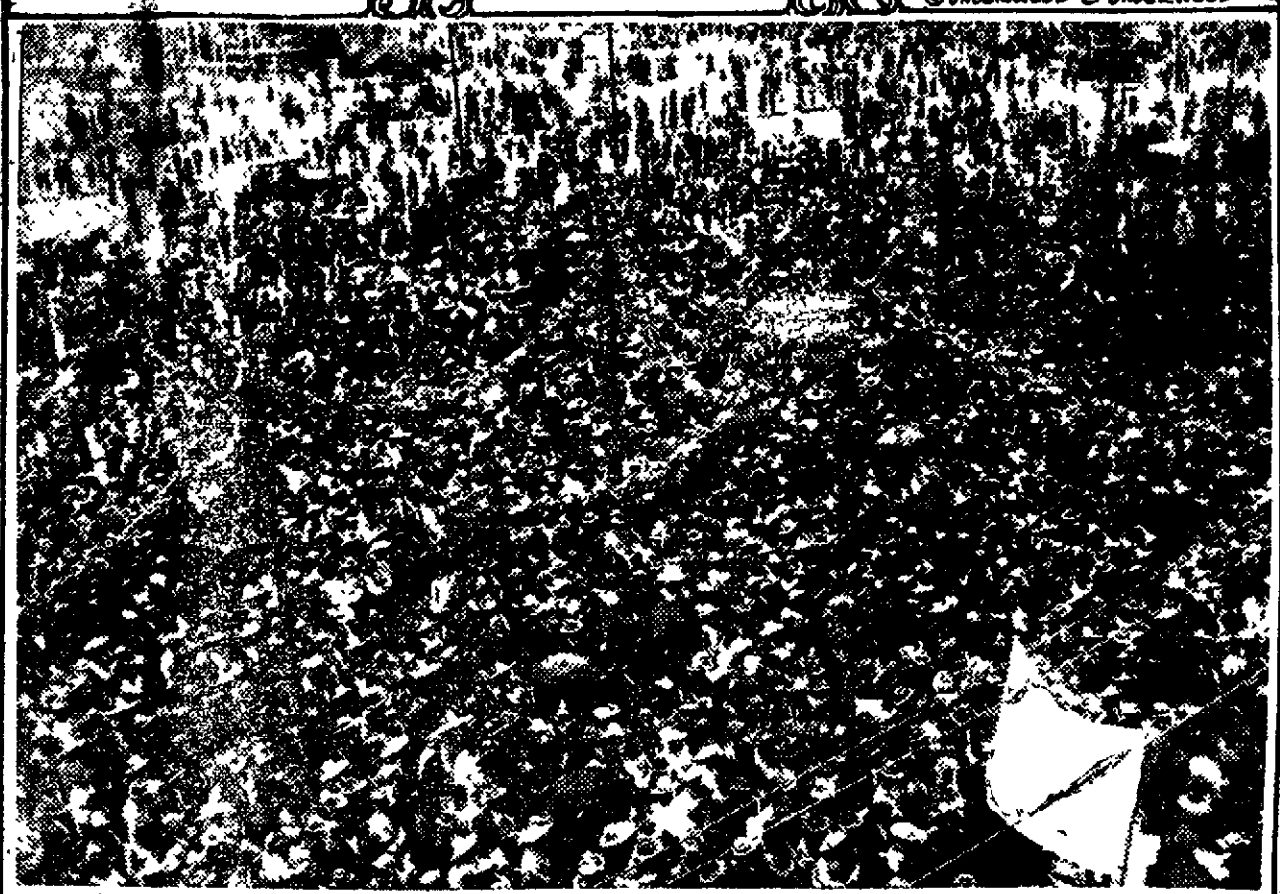

Action of Germany in selling quantities of arms to Great Britain during the Boer war, although German popular opinion was with the Boers, was cited by Charles S. Brand of New York, as an alleged inconsistency of the present German disapproval of the American munitions trade.

Professor Theodore P. Ion of Boston university defended munitions traffic as legal and countenanced by ancient and modern international codes. Other speakers were Professor John P. Lattane of Johns Hopkins University, Baltimore; Prof. Charles Noble Gregory, former dean in the Washington Law School of this city; D. Chauncey Brewer of Boston, and Rear Admiral John P. Merrell, retired.

SNOW AT BOSTON.

(ASSOCIATED PRESS TELEGRAM) Boston, April 28.—Snow fell over eastern Massachusetts and Rhode Island today, the latest date for any appreciable fall in more than 27 years. From early morning and through part of the forenoon unusually large flakes fell. The fall here was estimated at approximately two inches. It melted rapidly, however.

HUGE CROWDS CHEER CARRANZA AT PALACE IN MEXICO CITY

Carranza and his generals (top) viewing cheering multitude (bottom) from National Palace, Mexico City.

Like a conquering hero Carranza was received in Mexico City on his recent visit there. These pictures were taken on that occasion from the balcony of the National Palace. Upper photo shows Carranza (arrow) flanked on the left by General Alvaro Obregon, minister of war, and on the right by General Candido Aguilar, secretary for foreign relations, acknowledging the cheers of the crowd gathered below. The lower photo shows a partial view of the cheering multitude.

Organization of Bureaus of New Chamber of Commerce Will Be Completed Monday

The first meeting for the organization of the various bureaus of the new Chamber of Commerce will be held Monday evening at 7:30 o'clock at the assembly room of the Newark Trust building. At this meeting the Mercantile and Convention and Publicity bureaus will be organized, and directors nominated for the board of directors of the Chamber of Commerce.

The Mercantile bureau will be organized first, and then the Publicity and Convention bureau. The Industrial bureau will be organized Tuesday night, also the Agricultural bureau. The Civic bureau will be organized Wednesday night. The general meeting of the membership will be held Thursday or Friday night.

The board of directors will also be organized and the officers elected during next week.

The campaign committee is being assisted by D. H. McFarland of Town Development in the organization of the bureaus and the Chamber as a whole. At each meeting Mr. McFarland will outline the activities of the bureau in question. The committee is anxious that all members attend the bureau meetings in which they are interested.

There is so much demand for a Good Roads bureau and a Traffic bureau that they may be organized shortly after the directors are organized. For the present those interested in good roads are being directed to the Agricultural bureau

and those in traffic and transportation to the Industrial bureau. The manner in which the information blanks have been returned has been extremely gratifying to the campaign committee. The remarks on the blanks show the great amount of thought that citizens generally are giving to the new organization.

Several additional applications for membership were received today. Frank G. Warden, owner of the Warden Hotel, telegraphed that he was sending his attorney the authority to sign up for membership, and a letter of indorsement was received by Donald P. Stevens, superintendent of the Newark division of the Baltimore and Ohio railroad enclosing an application for membership.

The clerks at campaign headquarters today are sending information blanks to all members that were signed up Wednesday. Persons receiving these blanks are requested by the campaign committee to return them at once with the bureau checked according to their wishes in the matter.

Editor Will L. Finch of Town Development magazine, has requested Mr. McFarland to prepare a two page article concerning Newark and the new Chamber of Commerce for publication in the June number. This magazine circulates among the business organizations of the United States, and secretaries and officers of such organizations and many officials. Mr. Finch sent his congratulations, saying that the campaign was a notable one both in results and in the general representation of the membership.

MACHINISTS IN CINCINNATI GO OUT ON STRIKE

(ASSOCIATED PRESS TELEGRAM) Cincinnati, April 28.—Between 3,000 and 4,000 machinists will join the strike Monday. Every shop that is not working under a signed agreement with the union at the present time will be affected. This statement was made Friday morning by R. J. Corley, organizer of the Machinists' Union following a mass meeting of machinists at Central Turner Hall. Fifteen hundred men at that time voted to join the strike he said. A meeting of Mill Creek Valley machinists will be held this evening in the town hall at Elmwood Place and another meeting at Central Turner Hall Sunday evening. The strike has been in progress since last October, the union demanding recognition and an agreement with all shops to grant a 48-hour working week.

BATTLE

IMMINENT BETWEEN FORCES ATTACKING AND DEFENDING PANAMA CANAL.

Army Maneuvers to Work Out Problem of Defense Have Reached an Interesting Stage.

(ASSOCIATED PRESS TELEGRAM) Panama, April 28.—The army maneuvers in the canal zone undertaken on an extensive scale to work out problems connected with the defense of the Pacific entrance to the canal have reached an interesting stage.

The Blue army, commanded by Colonel Charles G. Morton, which yesterday reached Chorrera on its march to defend the canal, came in contact this morning with the Orange army under Colonel John S. Mallory, which is attacking the canal after theoretically effecting a landing near the village of New Gorgona.

A contact was made between the opposing cavalry outposts, which presages that the main action between the opposing forces will probably come within two days. This engagement, it seems likely, will involve possession of Capira Pass, through which the attacking force must come, thus making possession of the pass the main objective of each army. According to Brig. Gen. Clarence E. Edwards, commander of the canal zone the maneuvers have already demonstrated the feasibility of a hostile attack overland from either Chame Bay or near Aguadulce.

Captain William R. Pratt, naval aide on General Edwards' staff has asked the secretary of the navy to detail a cruiser and several submarines to a permanent station at each end of the canal.

DELEGATES NAMED TO CONSERVATION CONGRESS MAY 2-4

(ASSOCIATED PRESS TELEGRAM) Columbus, April 28.—Governor Willis today appointed 26 delegates to represent Ohio at the National conservation congress to be held at Washington May 2, 4 inclusive. This congress is an outgrowth of the famous conference of Governors held at the White House in 1908, at which every branch of American industry was represented. At the coming meeting accurate information on the mobilization of resources from the authoritative sources of the government and from outside experts will be given.

The delegates appointed include: Charles A. Finch, Cincinnati; Charles E. Adams, Jacob D. Cox, Jr., Cleveland; Talford P. Leon, Clarence Brown, W. B. Rosevear, Toledo; F. A. Zeibeling, A. B. Jones, Akron; P. J. Shouvin, W. S. Thomas, Springfield; A. J. Steinhens, E. A. Deeds, Dayton; D. D. Lillibridge, Zanesville; Charles Dana, Marietta; H. H. Timken, P. H. McLain, Canton and Chas. H. Spencer, Newark.

GERARD

Will Talk Personally With Emperor William at Headquarters

TRAVELED IN SPECIAL TRAIN

Placed at His Disposal By the Government

WILL CONFER ON ANSWER

Intimated That Germany Will Attempt to Meet Demands of the United States for Immediate Abandonment of Its Present Practice of Submarine Warfare.

(ASSOCIATED PRESS TELEGRAM) Washington, April 28.—Dispatches received at the German embassy today from the Berlin foreign office indicate that Germany will attempt to meet the American demands for the immediate abandonment of its present practice in submarine warfare. The nature of the proposals was not disclosed.

Count von Bernstorff has not been advised whether the suggestions he recently made to his government at the invitation of the foreign office have been adopted. He expects additional dispatches.

A visit of Ambassador Gerard to Emperor William was a topic of broad interest in official and diplomatic quarters today. German embassy officials believed the emperor invited Mr. Gerard to confer with him for the purpose of elaborating, for the benefit of President Wilson, his position and the position of the German government in further explanation of certain phases of the forthcoming German reply to the American note. It would be unusual for the emperor to conduct negotiations directly with the diplomatic representative of a foreign government.

INVITATION GIVEN AMBASSADOR GERARD CAME FROM EMPEROR.

(ASSOCIATED PRESS TELEGRAM) Berlin, April 27, 9 p. m., via London, April 28, 3:05 a. m.—James W. Gerard, the American ambassador, and Joseph C. Grew, secretary of the American embassy, left Berlin tonight for German army headquarters for an audience with Emperor William.

Although no information has been given out regarding the purpose of Ambassador Gerard's journey, it is evident that Emperor William wishes a thorough personal talk with him in order to obtain a clearer view of the American position on the submarine issue.

The ambassador and Secretary Grew travelled in a special special car attached to a regular train placed at their disposal. Mr. Gerard was attended by the U. S. military attaché for German army headquarters for an audience with Emperor William.

The invitation to visit the German headquarters was brought to the ambassador personally by Foreign Minister von Jagow.

The invitation is regarded in financial circles as a good omen. Nevertheless, experienced observers consider the situation still very serious and believe that the mere fact of the ambassador's meeting with the emperor and his advisers is of less importance than what was done at the conference at German headquarters. The ultimate decision at Washington is held to be quite incalculable until it is known how far Germany meets American wishes.

The news that Ambassador Gerard was going to the headquarters was already known at noon today but the censors, for some mysterious reason, refused to allow cablegrams to be sent announcing that fact until tonight, just as they had refused dispatches with news that the American note had been handed to the foreign office until the next day.

RAILROADS SHOW LARGE INCREASE

(ASSOCIATED PRESS TELEGRAM) New York, April 28.—The remarkable expansion of the coal industry due largely to the European war, is indicated by the enormous increase of tonnage reported by such bituminous roads as Norfolk and Western and Chesapeake and Ohio. Norfolk and Western for March today reported an increase of \$1,628,000 in operating revenue, with a net gain of \$1,132,000. For the nine months of the fiscal year the net gain was well in excess of 50 per cent.

Chesapeake and Ohio for March showed a gross increase of \$1,027,000, a gain of 31 per cent, while the net increase of \$550,541 represented an increase over last year of not less than 193 per cent.

WAGES INCREASED

(ASSOCIATED PRESS TELEGRAM) New Castle, Pa., April 28.—The Steel Car Forge Co. at Elwood City has announced an increase in wages for its 900 employees. The smallest advance to be given is 30 cents a day.

GARMENT WORKERS LOCKED OUT; WILL DECLARE A STRIKE

(ASSOCIATED PRESS TELEGRAM) New York, April 28.—Thirty thousand workers in women's cloak, suit and skirt manufacturers here received notice today of the beginning of a lockout affecting 400 shops controlled by members of the Cloak, Suit and Skirt Manufacturers' Protective Association. In those shops where Saturday is observed as the Sabbath the lockout takes effect tonight. In other shops it goes into effect Saturday night. In retaliation the president of the International Ladies' Garment Workers' Union and officers of the eleven cloak makers' unions, announced that they will declare a strike to become effective next Tuesday involving not only the 30,000 affected by the lockout, but also about 35,000 employees in 100 shops not called out by the manufacturers. If this threat is put into effect about 65,000 makers of women's clothing will become idle and the industry will be tied up as completely as by the big strike of 1910. The dispute arises over the question of maintaining a "closed" or "open" shop.

"How can a fellow get in the swim?" asked the social climber. "Oh, there are divers ways," replied the society reporter.

Nothing is impossible. A man may even live up to his wife's expectations of him.

PROSPEROUS

BUSINESS MEN VISITING NEW YORK ARE BLACKMAILERS' VICTIMS.

Organized Effort to Rid City of Gangs Follows Investigation by the Police.

(ASSOCIATED PRESS TELEGRAM) New York, April 28.—A number of arrests are expected here soon in a police campaign to break up gangs of blackmailers who have been preying upon wealthy visitors. Police Commissioner Woods said today that his investigation had been proceeding for several months and action might be expected in the near future.

A rich harvest reaped by the blackmailers is attributed to recent prosperous times which have brought thousands of well-to-do business men to New York. The typical blackmailing gang is described as including two men and two women. The women make the acquaintance of prosperous victims and the men pose as detective and lawyer. The favorite scheme, the police say, has been to induce victims to give up money to escape threatened prosecution under the white slave law.

A Plea For Indoors.
We have run the nature fad, as we have so many others, literally into the ground. We are fond of God's out of doors. We love the fields and woods and streams, too, but so much of this have we heard that we are tempted to make a strenuous plea for indoors, good old indoors—the indoors that is slowly going out of fashion. Let us pause for a moment in our consideration of nature and our enthusiasm for all her varied and wonderful exhibitions of life and make clear to ourselves just what indoors stands for. In the first place, it stands for home. A wigwam by the riverside is not a home; a tent on the lawn or in the canyon is not a home; a portable shack or hut or cave is not what represents home to us or to the world at large. Indoors is identical with the house, and a house is a man's castle be it small or mean or large and palatial. All out of doors cannot kindle the emotions of joy, love and reverence which that magical word "home" awakens. Indoors stands for sanctuary, for privacy. We can flee indoors when we want to shut out the world and to find peace.—Margaret Woodward in Country-side Magazine.

Service in the Supreme Court.
Of the original supreme court Cushing served the longest, or twenty-one years. But soon afterward very long terms became the rule. Bushrod Washington was on the bench thirty-one years, John Marshall thirty-four, William Johnson thirty-one, Joseph Story thirty-four, John McLean thirty-two, Joseph Wayne thirty-two and Roger B. Taney twenty-eight. In recent times S. J. Field and J. M. Harlan outlasted all others, each with thirty-four years.

No supreme court justice has ever reached thirty-five years, although four have passed thirty-four years. One of the greatest judges was also the youngest. Joseph Story was only thirty-two years when he went upon the bench. Washington, who had studied law in James Wilson's office in Philadelphia, at the request of his immortal Uncle George, was but thirty-six when he became a supreme court justice.—Philadelphia Ledger.

Strictly Official.
This amusing anecdote is told in the volume of "Recollections" recently published by the Hon. John Mildred Creed, member of the legislative council of New South Wales and a well known Sydney doctor. On one occasion Mr. Creed had to carry on the work of a magistrate for six months. During this time a great flood occurred, and the lockup was surrounded by water, a strong current passing through the cells. The sergeant in charge was so strictly official that he would take no action on his own responsibility. He therefore telegraphed to his superior officer: "Flood three feet deep surrounding and running through lockup. Have four prisoners on tables in their cells. Water rising. Shall I take them out or let them drown?" He at once received the necessary authority, acted on it promptly, and the prisoners were saved.

Brakes Refused to Work—City and
Traction Experts Are Making
An Investigation.

Cincinnati, April 23.—With the exception of Mrs. Anna Harris, 60, those who were injured yesterday when a Vine-Burnet car on which they were passengers, ran away on Highland avenue and was overturned at the Dorchester avenue curve are rapidly recovering, it was reported today. Mrs. Harris is suffering from a broken hip and probable internal injuries.

The funeral of Mrs. Clara Stiller, who was instantly killed, will be held Monday morning. Mrs. Stiller's head was cut off.

City and traction experts made thorough examinations of the car and apparently it was in perfect order. "We haven't been able to ascertain the cause of the accident," said Vice President Walter Draper of the traction company today. "An examination developed that the brakes were set, the air apparatus was intact, the sand box was in working order, the reverse mechanism was set and the track was in perfect shape. The car was practically new and not a thing apparently was out of order. Investigation shows that Motorman Davaney and Conductor Church did not lose their nerve and did everything possible to stop the car. Davaney has been in the service 25 years."

HUSTLING TOMMY IS
MANAGING HUSTLERS

Tommy Leach.

President Chapin C. Rochester made a ten strike when he obtained Little Tommy Leach to manage the Hustlers. Tommy has already shown that he possesses managerial ability by the way he has gone about building up his team for his new boss. A "midget" undoubtedly will be just as big a favorite in the international league as he was in the big show.

Science and Nations.

True revolutionists, believe me, the real men of action, who are promoting truth and justice for the morrow, are scientists. Governments fall and pass away; nations grow, shine with splendor and decay. But what matter? The discoveries of science will go on, will increase, will give mankind more and more light and certainty. The close of a century is a small matter; the march of human progress will always be resumed; human nature will insist on having knowledge, whatever may be the obstacles. It is foolish to object that we can never know anything; we have got to know all we can that we may attain the greatest happiness. And therefore I say, How foolish are all the political disputes that excite nations! While the salvation of progress is supposed to be involved in the fate of a ministry, it is really the scientist—the man of learning—who will be the master of the future when he shall be able to enlighten men with a new spark of truth. All injustice shall cease when truth shall reign.—Emile Zola.

A Doctor of the Old School.

Doc Robinson never looked wise and kept things to himself about a case. He'd let one tell him every little symptom and listen respectfully, and he'd never go and whip out one of those surveying instruments and go all over a patient as if he were laying out a new state road. No! He'd crack jokes, gossip delightfully and suddenly turn around and ask Margaret if that wasn't a brand new dress she had on, feed little peppermint candies to the children and sit with several on his knees while he talked. He made his call a pleasant affair. Every one in the house enjoyed it and got the benefit of it—even the invalid. "Well," he'd say reluctantly, "Kit and I've got to jog along, though it's mighty comfortable sitting here by your fire. We gotta go 'way out on the Cider Mill road.'"—Helena Smith-Dayton in Cartoons Magazine.

The Habit of Saving.

The United States is thrifter than it is commonly given credit for being because statistics most frequently quoted do not give all savings deposits and because a vast deal of savings goes on outside of savings institutions. Yet it does not live up to its opportunities by a long way. One of the country's ablest business men said not long ago that any one could tell whether he was going to succeed or fail by his ability to save. If he could not save he could not succeed. At any rate, inability to save for a man with an income above the bread line and no unusual ill luck implies a lack of self control that is not conducive to success.

Like nearly everything else, it is a matter of habit, and with a little determination to begin with the right habit is as easily formed as the wrong one. Try it.—Saturday Evening Post.

Gladstone Never Prime Minister.

Gladstone would probably have protested if any official document had described him as one of the principal secretaries of state, for he was keen on correctness in such matters. When giving evidence in a trial he was asked whether he was first lord of the treasury. He demurred at once to this description and explained that he was one of the commission for executing the office of lord high treasurer, "and I believe my name stands first on the list." In the same way it could be argued that Gladstone was never prime minister, for that post was first recognized officially eight years after his death. Sir Robert Walpole told the house of commons that he claimed no such title, and Lord North would not permit its use even in his own family.—London Spectator.

Where Van Tromp Died.

Texel, the low lying island at the entrance to the Zuyder Zee, was the scene of much fierce fighting between Dutch and English in the seventeenth century. It was off Texel that one of the greatest of Dutch admirals, Van Tromp, lost his life in 1653 in an engagement with the British under Blake, and near the same spot, almost exactly twenty years after, De Ruyter was defeated in a desperate conflict with the British and French under Rupert and D'Estrees. On Oct. 11, 1797, Texel again witnessed a heavy defeat of the Dutch, this time by Admiral Duncan.—London Mail.

Brier is Really Heath.

Brier pipes are not made from the wild rose brier. The name is a corruption of the French word bryere (death). The earliest brier pipes were introduced into England in 1850 and were made from the roots of the French white heath (Erica arborea).—New York World.

Stopped the Recitation

A Story of the Elder Sothorn

MY father never could or would recite. He had a sort of constitutional aversion to doing so. Perhaps he fancied people looked funny when reciting. He certainly took a fiendish pleasure in disconcerting reciters.

I remember once attending a benefit performance with him and Edwin Adams when John McCullough was to recite. He was billed to declaim a favorite poem of his, "Flynn of Virginia." They said he was quite wonderful at it. On this occasion my father and Adams selected seats in the middle of the front row of the orchestra and quite upset the proceedings. The recitation begins with the words, "You knew Flynn, Flynn of Virginia?"

Mr. McCullough came on and was greeted with great applause. He made an impressive pause and began, "You knew Flynn, Flynn of Virginia?"

Ned Adams and my father stood up and, looking steadily at McCullough, solemnly shook their heads as who should say, "No; we never heard of him." Then they solemnly sat down again.

McCullough was disconcerted, but went to it again. "You knew Flynn, Flynn of Virginia?" said he. Again the two solemn figures arose, shook their heads sadly and re-seated themselves. This occurred three or four times, each time McCullough finding it more impossible to control his laughter until at last he could do so no longer and went off the stage hysterical.—"My Remembrances," by E. H. Sothorn in Scribner's.

ESTABLISHED IN 1820

Entered as Second Class Matter March 10, 1882, at the postoffice at Newark, Ohio, under Act of March 3, 1879.

There are mighty few hats in the ring when it comes to electing a Sunday school superintendent.

Although no one is yet reported to be a candidate for vice president, the office can probably be filled by raising the pay.

The speeches on our side in politics are ringing blasts from the bugle, but on the other, merely toots from the same old fish horn.

Some imprudent men stay at home Saturday afternoons to clean up the back yard, when if they would lie low, their wives might do it.

The Mother's Congress should take up questions that really bother the modern Mother, like how to get control of the suits in Auction Bridge.

It is believed that if the coal men have to pay only 25 cents a ton more for labor, they will generously let the public off with a 50 cents a ton increase.

The anti-tip crusade is like the time it was planned to have all the inhabitants of the earth holler to Mars, with the result that they all kept still to hear the rest shout.

If those contests in raising farm products, held in many counties, were producing some perfectly useless result, what a crowd there would be about the bulletin boards to get the final scores!

The claim that Christianity is to blame for the present state of things in Europe is about like the man who threw all the doctor's prescriptions out of the window, and then blamed him because he didn't get well.

It is claimed that torchlight parades will again be popular in the fall campaign, but there are some of us who will never again march out four miles in the country and back for a doughnut and a cup of coffee.

Which One, Governor?

Alumni and former students of Ada who reside in Newark and elsewhere over Ohio have received during the last few days letters from President A. E. Smith of Ohio Northern University asking them to support ex-Governor Herrick for United States senator. Some of the Republican politicians in Licking county are wondering whether the Ohio Northern alumni organization which successfully managed the Willis campaign at the last state primary is now getting behind Mr. Herrick at the last hour of the afternoon.

Naturally this letter from President Smith making a strong appeal on behalf of Herrick makes the politicians wonder after Governor Willis' position. Many of the party leaders have been of the opinion that Governor Willis favors Harry Daugherty for the senatorship but this letter from Ada may mean that Willis is really for Herrick. Of course it's incredible to believe that the governor is "playing both ends against the middle."

Daily History Class—April 28.

1710—Thomas Petteffton, famous British actor, died.
1768—James Monroe, fifth president of the United States, born; died 1831.
1808—United States warships bombarded the Spaniards at Matanzas, Cuba.
1915—International peace congress met at The Hague.

ASTRONOMICAL EVENTS.

Evening stars: Mars, Saturn, Mercury. Morning stars: Venus, Jupiter. Sun on the meridian at Washington at fifty-seven minutes twenty-five seconds after 11.

Seed Time.

To the man with an imaginative mind, there is something very poetical about seed time in the rural districts. That the tiny seed now planted should grow to such grand harvests, typifies all evolution and the flowing of vast results from seemingly trifling causes.

Harvest time may be said to be the season of joy, when man gains the satisfaction of his toil. Seed time is the season of youth and hope. It stands for human energy, the willingness to stake labor and expenditure on the unknown future.

Modern science is said to take the poetry out of life. It certainly has reduced the chance element in farming. The man who plays the game scientifically gets his reward. Seed time now stands for the spirit of industry, the willingness to devote energy for the support of a family and other ends held dear. It is still the season of hope and faith. No ending, no matter how fruitful, ever has quite so much romance as the beginning.

Another Willis-Cox Campaign.

(Cleveland Plain Dealer.)

Results of Tuesday's primaries in Ohio point clearly to Gov. Willis and former Gov. Cox as the choices of their respective parties for leadership in the coming state campaign. The excellent run each of them made for membership in the national convention big four signifies the favor in which he is held by his party.

Lukewarm Republicans had been predicting that Gov. Willis would make a poor showing at the polls. In their opinion he would trail the big four, if he were not actually denied the credit of being among the four at all. Accordingly, the governor's run, second only to that of the popular Senator Harding, is gratifying to Mr. Willis and his friends and politically significant.

In the Democratic camp the race between former Govs. Cox and Harman was expected to indicate which of them would be most acceptable to the party as its candidate next fall. Mrs. Cox's capture of first honors in the big four race, therefore, is particularly pleasing to his partisans.

Clearly, the primaries foreshadow another contest for the governorship between James M. Cox and Frank B. Willis. The opponents of 1914 will ask a retort of their respective merits in 1916.

The Campaign Slogans.

(Columbus Dispatch.)

The Democrats are to appeal to the country, during the coming campaign, with the slogan, "The full dinner pail." That will mean that the nation has been kept out of war and that it has enjoyed a prosperity which has come to it legally and which it has shared in large measure with the suffering people of the nations at war.

The Republicans, on the other hand, are to assail the administration's European and Mexican policies, with emphasis on the failure to protect Americans in Mexico, the Vera Cruz incident, the recognition of Carranza and the long-continued controversy over submarine warfare.

With the creation of a tariff commission, the Democrats are to consider that the tariff has been taken out of politics, but the Republicans are to talk it just the same and to assail the Democrats for doing so late what the Republicans were the first to propose—the creation of a scientific commission.

The essence of the Republican contention will be that war would have been better than the peace which we have enjoyed, for everything in the Wilson policy that they condemn has been done for the purpose of maintaining peace, or proving to Latin America that we are here for helpfulness and not for greed, or holding the republic in safe position for the service of the belligerents, should the opportunity be offered. The president argued long with Germany because he thought persuasion was better than force. He withdrew the troops from Vera Cruz because he did not wish to coerce Mexico. He recognized Carranza because otherwise Latin America would have been against us. The president's

Let the Republicans Also Nominate Wilson

(New York World.)

Were Woodrow Wilson, a Republican president, with a record of achievement identical with his record as a Democratic president, the Republicans would renominate him by acclamation.

They would point to the revision of the tariff under his administration as the fulfillment of McKinley's dying pledge, which Roosevelt shirked and in which Taft failed.

They would point to the banking and currency law as the greatest piece of financial legislation yet enacted—a law which has made it possible for the United States not only to weather successfully the most devastating war in human history, but to aspire to the financial mastery of the world.

They would point to the income-tax law as a just and equitable means of making wealth bear its due proportion of the cost of government, for which the Republican party was entitled to a double share of credit because a Republican congress had submitted the amendment to the constitution which made the levying of an income tax possible.

They would point to the corporation tax as the extension of an act which the Republican party originated and which helped to transfer to organized capital some of the burdens of government previously borne by poverty and labor.

They would point to the repeal of the coast-wise provision of the Panama Canal tolls act as proof that the United States is faithful to its treaty pledges, and cannot be swayed from the ways of international honor and justice by the mercenary greed of special interests.

They would point to the Federal Trade Board as a progressive measure of constructive legislation by which honest and law-abiding business was protected from indiscriminate prosecution and enabled to work in harmony with the Sherman anti-trust act, in fairness to competitors and in fairness to the public.

They would point to the record of the Department of Justice as proof that business had been emancipated from political blackmail and that industrial organizations were no longer persecuted from motives of partisan advantage of private revenge.

They would point to the president's Mexican policy, identical as it is with Lincoln's Mexican policy, as evidence that the American people were no less determined than ever to give the backward nations of this hemisphere the fullest opportunity to work out their destiny, and finally achieve that liberty under law which even the most enlightened people have had to gain by struggle and sacrifice.

They would point to our new relations with Latin America as the realization of James G. Blaine's dream of Pan-Americanism—a dream that became a reality only through the far-sighted statesmanship of Woodrow Wilson.

They would point to the foreign policy of the president during the most difficult and critical period of history since the civil war as a supreme endeavor to maintain the highest American ideal of peace with honor. And they would say of his ultimatum to Germany as Le Magnin of Paris says of it—voicing the idealism which makes France and the United States forever kin—"one of the noblest acts in the history of mankind."

They would point to his leadership of congress as the solution of a problem that has so long vexed American government, by which comprehensive legislative programmes can be enacted into law without the president's coercing congress or bribing it with patronage.

They would point to his preparedness measures as full atonement for past derelictions on the part of the Republican party, and as an example of leadership that knows how, in times of national peril, to bring irreconcilable political elements into harmony for the public welfare.

They would point to the administration of Wilson as second only to the administrations of Washington and Lincoln in the record of mighty achievement in behalf of the American people.

All this and more would Republicans say of Woodrow Wilson if he were a Republican president. Why should the fact that he is a Democratic president preclude their saying it?

They have no presidential candidate of their own who measures up to the situation, and they do not know where to find one. They have no issue. Why not nominate Woodrow Wilson, as the Democrats are going to do, and to give the world the most impressive demonstration of American unity in great crisis that it has ever known?

We do not mean that the Republican party should shut up shop or make itself an annex to the Democratic party. That would be a calamity, for a party of opposition is essential to republican institutions. The Republican party could nominate its own candidate for vice president. It could name its own candidates for senators and representatives in congress, its own candidates for governors in the various states and for all local offices. Only the presidency would be excluded for the time from the arena of partisan strife.

No other nation with a leader like Woodrow Wilson would be crazy enough in the midst of a world crisis to change or tolerate any attempt to bring about a change. We know of no reason why the American people should be less sane than other people, or why they should permit their vital interests to be bedeviled for the edification of ambitious professional politicians.

It will always remain to the discredit of the Democratic party that in the strain and stress of the civil war it nominated a candidate for president against Abraham Lincoln and sought for partisan advantage to discredit the Lincoln administration. Surely the Republican party at a time like this cannot desire to emulate that miserable example of Copperhead Bourbonism. It cannot desire to weaken the influence of the United States government abroad by a partisan campaign against the president at home.

Republican politicians talk much about patriotism, American prestige, and the national honor. Do they believe what they say? If so, they ought to welcome the chance to nominate President Wilson. That would be a supreme manifestation of patriotism. It would strengthen American prestige in every capital of the world as nothing else could do. It would put the national honor beyond the possibility of stain. It would reveal to civilization a united Republic, eager for peace, unafraid of war and determined to maintain the glorious traditions of service to mankind which it inherited from the Fathers.

What say you, gentlemen of the Republican convention? Is the party whose proud boast it is that it saved the Union great enough and patriotic enough to help give to American democracy a new Union in this day when civilization itself is hanging crucified on a cross of European imperialism?

purposes have been throughout the kindest and best. It cannot be said that his policies have failed when they have kept American principles intact and the country out of war. The Republican side of the argument presents serious difficulties, in the case of thinking people.

Origin of "Cigar."

(New York Sun.)

The appeal of American soldiers in Mexico for tobacco recalls the fact that the word "cigar" is derived from a Spanish word "cigarra," which means garden, but how many know from what "cigarra" is derived. When tobacco was taken to Spain from the newly discovered America the people planted it in their gardens. When offering a smoke to a friend a Spaniard would say, "Es de mi cigarra (it is from my garden)." Through misunderstanding on the part of foreigners this expression was corrupted. The word "cigarra" was supposed to refer to the tobacco, and in time was shortened to "cigarro" and finally to "cigar." "Cigarra" is derived from the word "cigarra," meaning grasshopper abounded in the gardens and there sang the loudest. The original of "cigar" therefore is a grasshopper.

YOUR SPRING TONIC

To take a tonic in the Spring is only aiding nature. Everybody needs it. Confinement to the home, the store, or the office, during the winter months has reduced our vitality. You are beginning to notice that Tired Feeling. Nothing alarming. You simply need a Spring Tonic, a Brazer, something to tone up the whole system, cleanse the blood, start up a healthy circulation and regulate the liver.

A Farmer's Good Luck

WE were within about a mile of Findlay, O., and the train had just begun to slacken speed when we felt a jar and knew that the locomotive had struck some considerable object. In the seat next ahead was a farmer, and he threw up the sash, shoved out his head and exclaimed:

"By gum, but I'm in luck!"

"Why, they have killed a horse!" shouted a man behind us as he looked out.

"Yes, and it's my hoss!" added the farmer.

"But you said you were in luck?"

"You bet I am! I've been riding up and down this line for five year on a pass they gave me for killing an old cow which wasn't worth \$5. The pass expired yesterday, and now my old hoss, who ain't worth skinnin', gits in the way and is knocked over. Luck! Why, gents, that means a free family pass for five years more, and there are fourteen of us in the family!" — M. Quad.

He Would Make A Funny Judge

AN Irishman, taking home for his Sunday dinner a large goose, stopped at an inn to obtain a little refreshment. Putting down the goose, he was proceeding to satisfy his thirst when a seedy looking individual, seizing the bird, made off with it. Pat at once gave chase and ere running far had his man by the neck.

"What did yez take the bird for?" queried the irate Irishman.

"Sure," said the seedy looking one, "I took it for a lark!"

"Did yez?" returned Pat. "Begorra, ye'd make a bad judge at a bird show then!"

Indoor Life Makes Fat

Try Oil of Korein to Keep Weight Down, or to Reduce Superfluous Fat.

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against over-stoutness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air weakens the oxygen-carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that they are too stout are advised to go to W. A. Erman, Evans Drug Store or a good druggist and get a box of oil of korein capsules, and take one just before retiring at night.

Even a few days' treatment has been reported to show a noticeable reduction in weight. Improved digestion and return to the old energy; footsteps become lighter and the skin less flabby in appearance as superfluous fat disappears. Oil of korein is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial.

DOCTORS O. K. NIGHT AIR

Urge Sleeping With Windows Open

If you want red cheeks in the morning have your bedroom windows well open all night—thus do the modern physicians dispose of the old superstition about the miasma of night air. Fresh air and open bowels are the first and foremost health rules. If nature needs assistance in the shape of a laxative—use the natural, vegetable laxative—castor oil, the doctors first thought in all stomach and intestinal disorders—it not only removes the cause, but heals at the same time.

This may now be had in jellied form and deliciously flavored. Ask for Covington's CASTOR-JELL. On sale at R. W. Smith's Drug Store, The Castor Products Co., Cleveland, O.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

COMB SAGE TEA INTO GRAY HAIR

Ladies! Try this! Darkens beautifully and nobody can tell—Brings back its gloss and youthfulness.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and lustrous. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractive hair. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and lustrous and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet article requisite. It is not intended for the cure, mitigation or prevention of disease.

EXPERT TELLS A WAY TO CUT GAS EXPENSE

MISS HANKO ADVISES USE OF THE FIRELESS COOKER BY HOUSEWIVES.

Lectures in Advocate's Better Foods, Better Homes School, Resume Today—Conclude Tomorrow

Program for Saturday Afternoon

Subject: "The Servicing of Meals."
Menu:
Planked Fish
Fish Balls
Potato Salad
Devil's Food Cake

There is a chance to cut down on gas expense by using the fireless cooker, according to the helpful teaching of Miss Hanko, the food expert who is lecturing this week in the High School Auditorium, under the auspices of the Advocate. This afternoon Miss Hanko is preparing a crown roast of lamb in a most attractive manner and roasting it in the fireless cooker. She also explained how to freeze in the cooker.

General points on buying wisely make the lecture this afternoon one of the most helpful of the entire series. Miss Hanko suggests that housewives know what they are going to buy and then see that the trades people do not give them anything else. This of course, implies that the housewife have some knowledge of foods and textiles, but such knowledge makes the housewife more efficient and there are good books and magazines in the public library from which this knowledge may be easily obtained by the woman who desires to study them.

The second point she makes is that though the busy housewife should avail herself of the convenience of the telephone in ordering, she should go to market at least two or three times a week. Mr. Tilford of Tilford & Park, one of the largest grocery firms in the country, says that if women will appear in market in person they will develop a tremendous sense of buying. Miss Hanko says there is no more reason for ordering food over the telephone than hats, gloves or shoes. She recommends Louis D. Hall's book on "Marketing," which can be obtained by writing to the University of Illinois.

The women who attended Miss Hanko's school this week will have had a good time and so has Miss Hanko. This Better Foods, Better Homes proposition is being thoroughly enjoyed by all who are attending and there is much regret expressed over the fact that it closes tomorrow afternoon. Miss Hanko's final lecture will be on "The Servicing of Meals," and one of the interesting features of her cookery demonstration will be the planked fish.

The following are some of Miss Hanko's tested recipes. These are in addition to the ones demonstrated by her at the Advocate Better Foods, Better Homes school in the High School Auditorium:

Potato Soup.
2 tablespoonfuls Crisco, 2 tablespoonfuls flour, 2 slices onion, 1-2 teaspoonfuls salt, 1-4 teaspoonful celery salt, 1-8 teaspoonful pepper, 3/4 cup milk, 1/2 cup parsley, 3 cupfuls milk, 3 potatoes rubbed through strainer. Cook first eight ingredients together in double boiler. To these add milk and potato mixed together, and stir until all boils.

Foamy Omelet with Cheese.
4 eggs, 4 tablespoonfuls water, 1-2 teaspoonful salt, few grains of pepper, 1 tablespoonful crisco.

Separate yolks from whites. Beat yolks until heavy. Add water, salt and pepper, and mix well. Beat whites until stiff and dry, and cut and fold into yolks. Put crisco in omelet pan, heat carefully, turn omelet mixture into pan. Apply moderate heat for two minutes. When cooked, place in oven a few minutes to finish cooking the top. Fold, and serve from heated platter. Spread

with grated cheese just before folding.

USING UP VITALITY

The struggle for success uses up vitality in America at a greater rate than any other thing. Fighting to keep away from the poor-house we shorten the distance to the grave.

Especially in middle age, at forty or thereabouts, do we become impressed with the necessity of laying up a competence and with that feeling in time comes worry, nervous breakdown, neurasthenia. The entire system feels the result of the nervous strain. The digestion resents things that it accepted before, the heart palpitates on slight exertion, the muscles of the back ache after a day's work. Your blood is thinner and not so bright a red.

When these things occur, whether you are forty or forty-five, you need a tonic. Dr. Williams' Pink Pills suit most people's need because they are non-alcoholic and they really build up the blood and strengthen the nerves. They are useful for growing children and for men and women whose nervous energy has been overtaxed.

Your druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write today for free booklet on the blood and nerves.

with grated cheese just before folding.

Macaroni American.
Boil macaroni. Arrange layer in baking dish greased with Crisco. Sprinkle with grated cheese. Repeat layers until dish is filled. Then pour over white sauce generously, cover with prepared crumbs, and bake until crumbs are delicately browned. To prepare crumbs: Mix dried crumbs with melted crisco, using 3 tablespoonfuls crisco to each cupful of crumbs.

ENDEAVORERS BEGIN TOUR OF THE COUNTY

The officers of the Licking County Christian Union have started a county tour in which they hope to visit every society in the city and county. On Thursday evening they visited the Endeavorers of the United Brethren church in Etina and had an interesting meeting. Mr. Robert Rosal, county president, had charge of the meeting, and Mr. A. Ray Evans, county field secretary, was the speaker of the evening. Mr. Evans talked on general Endeavor principles, which was followed by a round table talk in which some interesting subjects were discussed. Short talks were given by the county missionary superintendent and corresponding secretary and some excellent music was furnished by the Etina Endeavorers.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of ointment—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

Theatres

Alhambra Tonight and Tomorrow.
"The Eternal Grind," in which the incomparable Mary Pickford is starred by the Famous Players Film company, is the Paramount Picture at the Alhambra tonight and tomorrow. It is, if possible even more powerful than any photoplay in which Mary Pickford has ever appeared and gives that star the greatest opportunity of her film career.

At the Grand.
The Vitagraph company will present an educational picture at the Grand tonight, showing life and training in the U. S. N. of the men who sail the seas for Uncle Sam. Taken by special permission and in co-operation with the United States Navy.

At the Princess.
Dorothy Gish will be seen at the Princess tomorrow in "Her Mother's Daughter"; also two other comedy reels.
Sunday, Mr. and Mrs. Vernon Castle will be shown in "The Whirl of Life."

Last Night's Show at Mazda.
Capacity business greeted the appearance of Sarah Bernhardt in "Jeanne Dore" last night at the Mazda. The distinguished actress is appearing in this production in a farewell tour of America, and our people will see the divine Sarah Bernhardt probably for the last time. The pictures will be shown again tonight.

COST OF PENSIONS.
London, April 28.—The war office estimates that the cost of pensions arising out of the war for 1916-17 will be \$13,000,000 and for 1916-17, assuming the war to last through the year, will be \$50,000,000. In addition there is a charge of nearly \$25,000,000 for pre-war pensions.

Very Sensible Reasons Why You Should Buy Your Home Furnishings At Stewart Bros. & Alward Company

COST

The dealer's cost of merchandise varies according to his buying power. His buying power is according to the quantity he buys. Stewart Bros.-Alward Co.'s buying power is greater than any other furniture firm in Licking county, which greatly lowers the price we pay the manufacturer. Even in the face of an advancing market we have protected ourselves by making large contracts at the old prices, which shows you that we realize the responsibility of our acquired leadership.

PROFIT

A dealer must figure his profit according to the volume of business he does. If he does a very small business, he must make a larger profit. If he does a large business, he can be content with a smaller margin on each sale. It is volume that makes his dividends. On account of our great volume of business, we can be content with a reasonable margin of profit. All prices are the same to everyone—not one price to you and a lower one to someone else—a fair profit boiled down to its lowest.

Wrestling Season Closes With
Tonight's Bowser-Turner Bout;
Record Crowd to Greet Mat MenNewark sportsmen who have been
educated to like the brand of wrestling
promoted by Paul Bowser, champion
middleweight, will tonight attend the
last match of the season in which Joe
Turner of Washington will seek to re-
gain the championship title and belt
which he lost to Bowser here two
months ago.As a feature of the closing match,
Bowser will introduce to Newark fans
five pupils of "Young Coach" Al Huff,
Columbus wrestler, in a tournament
with five of Bowser's pupils here.
Bowser and his pupils are selected after
elimination bouts at the Music Hall
Wednesday night.The seat sale which opened early
this week indicates that tonight's
crowd will come close to equalling the
record crowd which greeted the same
wrestlers here when the title changed
hands.The bouts will start soon after 8
o'clock and it will be about 9 when the
main event begins.As both Bowser and Turner meet
at catch weights, neither will be
weakened by any severe training which
saps the strength of an athlete when
he is compelled to make a weight
which is below normal. The match
should be the best ever staged in the
city.

OVER LEWIS AT TOLEDO
Toledo, April 28.—Kid Graves, Cleve-
land, welterweight, gained the news-
paper decision over George Lewis, local
boxer, without any apparent exertion
in their ten round fight here last night.
The only fighting done by Lewis was
that in the tenth round when he rallied
and earned an even break.

CHIP VS. CHRISTIE.

(ASSOCIATED PRESS TELEGRAM)
Cleveland, April 28.—George Chip, of
New Castle, Pa., and Gus Christie, of
Milwaukee, middleweights, are the main
attraction in the Cleveland Athletic
club and tonight. The men will weigh
in at 158 pounds. Three other matches
of ten, eight and six rounds will be
staged, the contestants all being local
talent.

SWORDS FOR ALLIES.

Tokio, April 28.—Japanese sword-
smiths have received orders to supply
5000 swords to the extent al-
lies. They are for the use of offi-
cers.Urges Everyone
to Quickly Get

Breakfast to Wash Out
Poisons.To see the tinge of healthy bloom
in your face, to see your skin get
clearer and clearer, to wake up with-
out a headache, backache, coated
tongue or a nasty breath in fact to
just try inside-bathing every morning
for one week.
Before breakfast each day, drink a
glass of real hot water with a tea-
spoonful of limestone phosphate in it
as a harmless means of washing
from the stomach, liver kidneys and
bowels the previous day's indigesti-
ble waste, sour bile and toxins; thus
cleansing, sweetening and purifying
the entire alimentary canal before
putting more food into the stomach.
The action of hot water and lime-
stone phosphate on an empty stom-
ach is wonderfully invigorating. It
cleans out all the sour fermentations,
gases and acidity and gives one a
splendid appetite for breakfast.
A quarter pound of limestone phos-
phate will cost very little at the drug
store but is sufficient to demonstrate
that just as soap and hot water
cleanses, sweetens and freshens the
skin, so hot water and limestone
phosphate act on the blood and in-
ternal organs. Those who are sub-
ject to constipation, bilious attacks,
acid stomach, rheumatic twinges, also
those whose skin is sallow and com-
plexion pallid, are assured that one
week of inside-bathing will have
them both looking and feeling better
in every way.

GRIFFITH WINS OVER

BEECHER IN CLEVELAND
Cleveland, April 28.—Johnny Griffiths
of Akron, outpointed Willie Beecher of
New York here last night in 10 rounds.
Beecher was unable to cope with Grif-
fiths' left and, with the exception of one
round, was unable to get through the
Akron box guard to any ap-
preciable extent. Griffiths blocked
most of the New Yorker's punches but
landed often himself. In the last two
rounds Beecher carried the fight to
Griffiths in an attempt to even mat-
ters, and finished fresher than the
Akron boy, but was unable to over-
come Griffiths' team.

PERRY GETS DRAW

IN WILLIAMS BOUT
Galion, April 28.—Jack Perry of Col-
umbus earned a draw with Earl Wil-
liams of Cleveland here last night in a
10-round main event. The last from the
Capitol City had nearly seven pounds
the best of it in weight. Billy McCann
of Cleveland lost an eye during the dis-
posing of Kid Nichols of Columbus in the
eight-round preliminary, though the
bout went the full distance.

London, April 28.—Viscount Bryce,
former ambassador to the United
States, unveiled a memorial tablet to
Walter Bagehot over the doorway
of the political economist's birth-
place at Langport recently and
among other things said: "Nowhere

Indian

You Must Actually Handle the 1916 Indian
—study it for yourself—ride it—before you can appreciate why we
claim it is wonderful!You must see it verify our claim—see any stock model actually go
through its extraordinary performances.

You must get a demonstration of the new Indian Powerplus motor.

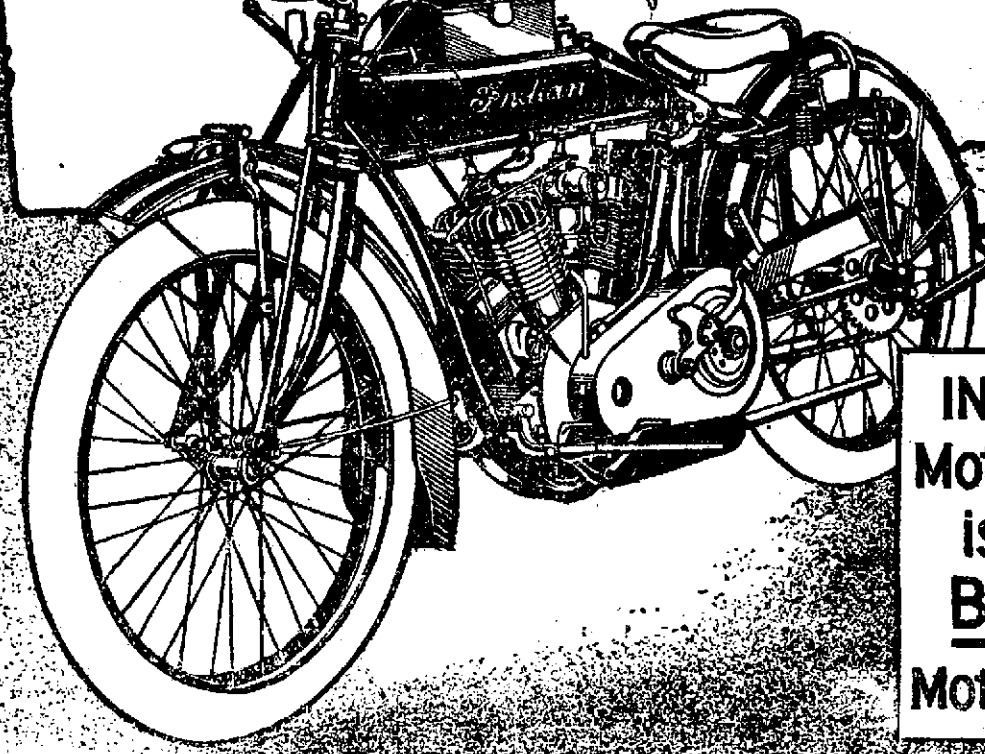

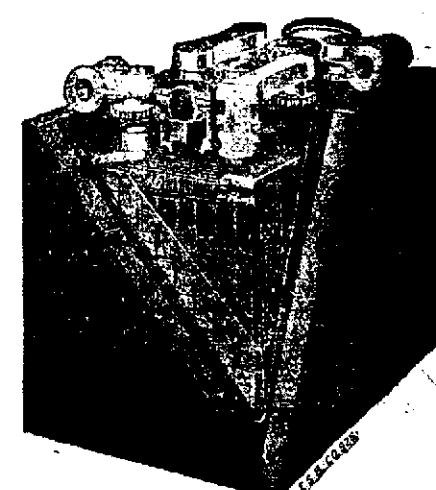

That will give you a better and more convincing idea of Twin Cylinder
efficiency than a million words could give you.Go right outdoors with it. Note how clean it is—how slight. Listen to its velvety
action while it does 70 miles an hour right before your eyes!

Watch it skim up a hill with an ease that defies duplication.

The Los Angeles Police Department wanted 37 1916 Indians with Powerplus motor—
if they proved up to required speed and efficiency.Every one of the 37 stock machines showed a speed of at least 75 miles an hour—with-
out a single adjustment before or after the test!That's why we say the Indian is wonderful. We claim the legitimate use of the word,
and the Indian never fails to make good our claim.We repeat—see this wonderful machine with its wonder-
ful Powerplus motor. Ask for an actual performance.

COMMENT

OF LONDON NEWSPAPERS CONCERNING THE REVOLUTION IN IRELAND.

Also Concerning the Withdrawal of the Government's Military Service Bill.

London, April 28.—Dealing with the Irish situation the Daily Chronicle urges the government against the adoption of harsh measures, adding:

"The immediate military situation ought not to present great difficulties. Indeed it is not easy to understand how the Sinn Feiners have been able to hold out for days in Dublin. We should have thought that all military arguments would favor crushing the movement in the capital with the utmost rapidity, for every day that it protracts its theatrical resistance must add to the risk of its finding imitators elsewhere.

"We hope there will be a prompt and honest inquiry into the motives of the rebels and the best means for bringing them back to their senses. A commission composed of well-known Irish leaders to assist in dealing with the rebels and negotiate their surrender might be of great service."

The morning newspapers virtually all speak of the situation which has arisen in parliament through the unfavorable reception of the withdrawal of the government's military service bill as a new political crisis. The Daily News' lobby correspondent says:

"The incident shows it is useless for sections of the ministers to agree on a compromise if they have not secured the consent of their respective supporters. The cabinet was deluded by the secret sessions and assumed that because the plan was not upset then, it would afterwards receive the assent of the house.

NEURITIS AND STOMACH TROUBLE HELPED

MRS. PHILIP STREAR IN BAD SHAPE, BUT PUT RIGHT BY TANLAC.

"We Think Tanlac a Great Medicine and Surely Recommend it."

Mr. Philip Strear, the well known tinner, who resides at 61 South Fifth street, in speaking of his wife's benefit from Tanlac, says:

"My wife had neuritis and stomach trouble, had little appetite, was sleepless, was run down and generally debilitated. Tanlac had corrected those ailments and she feels better than she has for years; in fact, we think Tanlac is a great medicine and gladly recommend it."

Tanlac also is excellent in catarrh, liver and kidney trouble, and as a tonic has no equal.

Tanlac is demonstrated at Hall's Drug Store and is for sale at Utica by P. H. Richardson, Hebron by the Hebron Drug Co., Granville by W. P. Ullman, Pataskala by J. R. Strine, Croton by J. W. Haines, Johnstown by C. S. Howard, and Centerville by E. B. Walter.

ADVENTURER IS REPORTED DEAD IN S. AMERICA

(ASSOCIATED PRESS TELEGRAM) New York, April 28.—News of the death of Captain Fritz Duquesne of New York arrived in a dispatch to The Times from Buenos Aires. It was said that Captain Duquesne was killed in a battle with Indians on the Bolivia frontier and that his expedition was looted.

A BILLION PEOPLE NEVER HAVE HEARD GOSPEL, SAYS KRAMER

"Although the gospel of Christ has been preached for two thousand years, there are a billion people in this world who have never heard Christ's teachings," said John F. Kramer of Mansfield, in an address before the men's class of the Second Presbyterian church last night. The address followed a class supper which was attended by more than 100 men, being the largest crowd which has attended one of these functions.

Mr. Kramer, who is candidate for nomination for congress from this district, spoke on "Spiritual Things vs. Temporal Things." His address was a plea for greater sincerity on the part of professing Christians, many of whom, he said, indicated by their practices that they believed being a Christian consisted of attending Divine worship once every Sunday.

"Most any Christian will admit that the human soul is the most valuable thing in the world," said the speaker. "Yet they will continue to expend their entire energy to obtain those things which pertain to time only, not eternity."

"The whole world is crying out for the gospel," he said. "In former years it was difficult to get into the heathen countries to carry Christ's teachings to the people but today these countries are easy of access and there is a great demand for Bible teachers."

"The church is not the battlefield. Its only a recruiting station. The world is the battle ground. Most of us are merely good drillers. We will attend church and drill but we draw the line at fighting. We are too apt to regard our business as the most important thing in life and look upon the church of God as a mere convenience."

736 SHIPS SUNK DURING THE WAR, BRITISH REPORT

(ASSOCIATED PRESS TELEGRAM) Washington, April 28.—British estimates of the European war's toll of merchant ships, given in figures today by the department of commerce, put the number at 736 with a tonnage of more than two million. Allied vessels lost number 538 and neutral 198.

The estimates made by a British admiral, gave British losses as 414 ships; French 53; Russian 25; Italian 27; Belgian 10; and Japanese 3. This does not include the loss of 237 trawlers by the British, seven by the French, and two by the Belgians.

Norway with 81 vessels destroyed, leads the neutral nations in losses. Sweden, with forty, is second and Denmark, with 24, third. Holland has lost 24 and the United States seven.

Wisk—"How does Boreen always manage to get hold of some girl who will laugh at all his stupid jokes?" Waggs—"Oh, that's easy. He picks out one who has pretty teeth and a dimple."

SMITH KILLED BY FLY WHEEL OF GAS ENGINE

Charles Smith, 29, a farm hand living near Johnstown, died last night at Grant Hospital, Columbus, of injuries received at 10 o'clock yesterday morning when he was caught in the fly wheel of a gasoline engine on the O'Bannon farm, two miles west of Alexandria. He incurred a fractured skull, a broken back and a fracture and dislocation of his right arm.

Smith was assisting in the operation of a corn shredder and was standing close to the engine used to drive the machine. His coat became entangled in the fly wheel of the engine and before it could be stopped he was whirled through the air several times.

He was hurried to Grant hospital but his injuries were such that it

was found impossible to save his life. He leaves a young widow.

The body was taken to Johnstown today and funeral services probably will be held Saturday.

MR. MONTGOMERY IS DELEGATE FOR THE THIRD TIME

Wesley Montgomery of Montgomery Court, East Newark, left today for Saratoga Springs, N. Y., where he will attend the sessions of the General Conference of the Methodist church, as one of six lay delegates

from Ohio. This is the third time that Mr. Montgomery has been lay delegate to the general conference from this state. The sessions of the conference are held every four years and last four weeks. Mr. Montgomery represents a district of about fifty churches.

TESTED RECIPES.

One-half cupful sugar, two cupfuls dates, cut in pieces, two cupfuls milk, one-half teaspoonful salt, one-quarter cupful butter or three tablespoonfuls manufactured short-

ening, four cupfuls flour, three eggs, two teaspoonfuls baking powder.

Cream butter, add sugar and the well-beaten eggs. Add milk and flour, which has been sifted with salt and baking powder, alternately. Beat thoroughly and add dates. Pour into buttered muffin tins and bake.

Muggins—"Why the expression of ennui?" Buggins—"I have just been attending a board meeting." Muggins—"I thought you looked a trifle bored."

THE HUB

TWO ARE DYING; SOLDIER SHOWS PISTOL'S "SAFETY"

(ASSOCIATED PRESS TELEGRAM)
Columbus, N. M., April 28.—Villagers scattered adherents are gradually being pushed to the wall, according to unofficial reports here today. These reports said that the remnants of the Villa army are fleeing for cover, the morale broken, the men half starved and almost physical wrecks.
So far as is known here only two bands of any size remain under the Villa standard, one somewhere on the Durango-Chihuahua border and another in the mountains east of Guerrero. The rest of the command that attacked Columbus is said to have scattered, singly and in groups of two and three.
Of the two bands in the field, it is known that Col. George A. Dodd with a force of tried cavalrymen, is close on the heels of the one in the

Guerrero district which is said to total about 250 men under four chiefs. Last reports placed Col. Dodd at Minicua, obtaining supplies.
Less is known here of the activities of the second band now beyond the apex of the American dash. It is with this detachment that Villa, guarded by one hundred of his followers, once the flower of his army is supposed to be fleeing.
Two men are in a dying condition today as a result of an accidental shooting with an army pistol and all civilian employees at the base here are being warned against carrying arms other than rifles and only those when they are on duty in Mexico. Roy Shell, 23 years old, of San Antonio Tex., a truck driver, shot himself while demonstrating the "safety" of his pistol. The bullet went through his body and struck D. L. Gage, 34, a laborer of Deming, N. M., in the abdomen.

Try Jay Kane
The wonderful "Sunday Morning Bath"

Milady's Boudoir

The Spring Complexion.
Drawing rooms, restaurants and theatres are all artificially lighted. Even the windows of the home breakfast room and boudoir are so veiled with curtains and hangings that the morning sunshine is softly diffused and not garishly bright.
But with spring the sun begins to have its own way. It floods the streets and pours in at the open windows. One shops at a morning, and promenades in the late afternoon, in the sunlight instead of the half twilight of the short winter day.

Daffodils and crocuses in the florist's windows, pale tinted spring finery displayed in the store windows, emphasize the pathetic contrast between freshness and newness, and the fading, worn out shabbiness, and, incidentally, make doubly wan the complexion sallow by too little sunshine, too hot rooms, too late hours and too much rich food.

All these things affect the complexion of the debutants as well as her mother, but while the young woman merely loses her bright color and some of the lustre of her eyes, and takes on an interesting pallor and sharpened lines of facial contour, the older woman looks sallow and sagged.

Now is the time to renew the complexion, to bring it up to tone to stand the test of spring sunlight. Very far gone indeed must be the complexion that will not bloom again in tints of cream and pink, if the right method of reclamation is followed. This method does not mean a reliance upon creams, unguents and massage, though all these have a part in it, but it does mean plenty of nature's remedies: pure water, fresh air, simple food and exercise.

IRISH PAPERS ATTACK WILSON; IS IT A CRIME?

(ASSOCIATED PRESS TELEGRAM)
New York, April 28.—An investigation was begun today at the office of the United States District Attorney to determine whether a crime had been committed by persons responsible for attacks on President Wilson and the national administration that have appeared in Irish-American papers published here since the outbreak of the revolution in Dublin. Copies of these editorials will be examined, it was said by one of the assistant district attorneys who has been prominent in the investigation of alien conspirators.
The attention of the federal authorities was first aroused by an editorial statement that information which led to the sinking of the German ship which attempted to land arms and ammunition on Irish soil came from a member of the Washington administration "on the orders of President Wilson." This declaration has been authoritatively denied in Washington.

RUSSIAN SYMPHONY ORCHESTRA BOOKED AT GRANVILLE, MAY 8.

The Granville Festival Association will present the Russian Symphony Orchestra as the fifth number on the lecture course. This concert will be given Monday afternoon, May 8th. From a very modest beginning in 1903, the concerts of this orchestra have now a first rank position through sheer merit, and noteworthy achievement in the finest forms of music. To its brilliant conductor, Modest Altschuler, is due more credit for the remarkable success of this orchestra than to any other man. Under his leadership the concerts of this society have become events of moment in the musical life of the country's great music centers. Music-loving people of New York, and other places where the orchestra is best known, have eagerly grasped the opportunity to hear some of the finest musical compositions which are given by no other orchestra. Every program played through the whole length of the orchestra's existence has been made up largely of Russian compositions, works of highest standard. During its twelve years of experience it has been governed by a singleness of purpose and unswerving idealism that counts most for achievement in the realm of art.

The Russian Symphony Society prides itself upon the unique distinction of being among the country's largest orchestras, the only one which exists by public favor alone, without the aid of any large endowment fund. It has made several transcontinental tours, during one of which 221 concerts were given in 29 states and Canada in the course of 23 weeks.

Granville will be the last engagement in which the large orchestra of fifty pieces will appear, all later concerts this spring being given by the smaller orchestra of thirty-eight pieces. In the orchestra concerts there will appear an additional soloist in concerto or aria.

On the evening of the same day, Engwerson Choral Society, a chorus of about two hundred voices, will sing Haydn's Creation, the Russian Symphony Orchestra accompanying. The vocal soloists for the oratorio will be Marie Stoddart, soprano; Dan Beddoe, tenor, and Wilfred Glenn, bass. These are all artists of recognized merit, with a national reputation, as all have appeared on the programs of some of the most widely known festivals of the country.

The pay checks for the Baltimore & Ohio railroad employees arrived here yesterday.

Going Abroad.
It was announced at headquarters of the Baltimore and Ohio railroad this week that George F. Randolph, first vice president of the company, will sail from New York on May 6, and probably will be gone two or three months for the purpose of looking into the company's business abroad.

Action Taken in Controversy.
The Chamber of Commerce of the United States of America is taking

an active interest in the controversy between the Brotherhood of Freight Trainmen and the railroad and is sending to all Chambers of Commerce in the country literature regarding it.

The Cincinnati Chamber of Commerce and Chambers in numerous other cities have adopted resolutions based upon the interest of the general public in the situation. The resolutions oppose a strike and urge that the two factions get together and submit their differences to a board of arbitration.

J. F. Keegan Here.
General Superintendent J. F. Keegan of the Baltimore and Ohio railroad was in the city a short time today, enroute from Columbus to Wheeling, W. Va.

Legislators Receive Passes.
Members of the Tennessee legislature of 1913 testified yesterday at the interstate commerce commission inquiry into the affairs of the Louisville and Nashville, Chattanooga & St. Louis railroads, that they had received hundreds of railroad passes which they turned over to their constituents. They denied their actions, as legislatures had been influenced.

The diet for a nursing mother will, under ordinary circumstances be just the same as before the baby was born. It must be nutritious, laxative and appetizing. She may follow her own whims as to the choice of food. The old idea that acid fruits and vegetables give the baby colic is probably not true, since all acids are changed in the process of the mother's digestion. However, if they or any other food or drink disturb the mother's digestion this may have an unfavorable effect upon the milk.

It is necessary, therefore, to watch the diet very carefully and eliminate all articles that actually show themselves to be unsuited to the mother. If, in addition, the mother eats slowly, chews her food thoroughly, and above all, refrains from worry, there will be no reason to suppose that the maternal milk will not agree with the baby.

Everyday Etiquette

"When two ladies and a man occupy the rear seat of a motor car, should the man sit in the center?" inquired Clarence.

"The gentleman should sit next the door so he can be ready to alight first and assist the ladies and get in last to close the door," replied his elder brother.

Old Pap Pinkham : He Keeps President Wilson Posted

MY DEAR MR. PRESIDENT—In your late letter you officially requested me to compile a list of outrages committed in Jericho in the last three months, and I hasten to comply.

One day a stranger entered my postoffice and spoke about the war and asked me what I thought about it. In my usual frank manner I gave him to understand just where I stood. He went away muttering to himself, and that night every dog in Jericho was barking, and that night every dog in Jericho was barking, and that night every dog in Jericho was barking.

One night our efficient chief of police espied a man skulking around our city hall. The skulker had a package under his arm. When the chief attempted to seize him he dropped his package and fled. The package contained a strange powder—either a Persian powder to kill insects or a deadly explosive. If it was an insect powder, why should the stranger skulk and then run away?

For the last six or seven years Ebenezer Skinner has fairly ached to die for his country. He has many times gone out of his way to say that if our country was invaded he would be the first man to shoulder a musket. We had personally warned him on several occasions that he had better make less noise about his opinions, but he kept right on. One night as he went home from prayer meeting a brick was thrown through the darkness, which carried away his plug hat and shattered it forever. Next morning he came across a stranger whom he suspected of the outrage and blacked both his eyes, but this did not stop the outrages.

One afternoon Deacon Slybacker came into my postoffice to buy a stamp and spoke of the outrages and said: "Look a-here, pap, something has got to be done. If the president won't move Jericho will, and if this town wakes up one morning and sees a score of men dangle from a score of limbs of our shade trees President Wilson will be to blame."

I signed to the deacon that a stranger had entered and was listening to his words, but he went right on with his roar. As a consequence I was not surprised next morning to hear that his old white horse had been painted black all over and that his old dog had lost his tail and one ear. There were strange tracks leading from his gate to his door.

Mr. President, I can personally vouch that suspicious strangers are arriving in Jericho on almost every train. There is a general belief among the best men that a foreign enemy will invade this country within a few months unless some serious movement is made. As postmaster I shall know my duty in such a case. I spent all day the other day in pouring through the woods in search of a blow log. In case of an invasion or a plot to blow up my postoffice I shall remove all the mail to that hollow log and then shoulder a musket and take my place in the front ranks of those who would die for their country.

PURE BLOOD.

Twenty-four hours after you start to take Dr. Pierce's Golden Medical Discovery, poisonous matter and blood impurities begin to leave your body through the eliminative organs. It brings new activity to the liver, stomach and bowels in a short time, thus causing sallowness, indigestion and constipation to disappear. It enters the tiny blood vessels of the skin, bringing with it fresh vitalized blood; and abiding faith in its wonderful cleansing power has come to thousands, when pimples, boils, eruptions, rash, eczema, acne and other skin troubles dried up and disappeared. Good blood means good health; good health means strong men and women, full of vigor and ambition, with minds alert and muscles ever willing. Any medicine dealer will supply you with Dr. Pierce's Golden Medical Discovery in either liquid or tablet form. Remember it is not a patent medicine for its ingredients are printed on the wrapper. It's a pure glyceric extract of roots, made without alcohol.

What Our Neighbors Say.
Mansfield, Ohio.—"I am glad to endorse and recommend Dr. Pierce's Medical Discovery. I used it for a 'coming-up' medicine and it was satisfactory. It increased my appetite and straightened me up every way. It is a good builder and tonic."—Mr. W. T. Cookston, 151 South Foster Street.

A new man or "a new woman" can be made out of one that's "used-up," bilious and dyspeptic. It's done by Dr. Pierce's Golden Medical Discovery. It starts the torpid liver into healthful action, purifies and enriches the blood, cleanses, repairs, and strengthens the system, and restores health and vigor. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength.

POLICEMEN WILL NOT SERVE WITH STRIKE DEPUTIES

(ASSOCIATED PRESS TELEGRAM)
Pittsburgh, April 28.—Nine policemen making up the borough force at Wilmerding, where the Westinghouse Airbrake company's plant is closed because of the strike of electrical and munition workers in the Turtle Creek valley, notified the chief of police, W. H. Garland today, that they would resign unless the deputy sheriff were removed. They said they had no objection to the deputies remaining at the works but they did not want them patrolling the town. There was quiet in all the strike boroughs in the valley this morning. Workers generally remaining off the streets with the exception of those detained for picket duty. Their leaders claim they now have more than 10,000 workers out, and that many other trades will join them on Monday all working the eight-hour day. Reports that barbers and elevator operators had demanded shorter hours and higher wages further complicated the labor situation, but hope was still held out that the Pittsburgh Railway company operating all traction lines, would reach some agreement with their men before Sunday at midnight.

ANTI-SPITTING CRUSADE BEGUN IN CLEVELAND.

(ASSOCIATED PRESS TELEGRAM)
Cleveland, April 28.—Spitting on the sidewalk, in a street car or public building today may land the offender in jail with the likelihood of a \$10 fine and court costs to pay. Today is anti-spitting day in the clean up crusade of the past two weeks and patrolmen, sanitary officers and street car conductors will be on the lookout for violations of the spitting ordinance. Boy Scouts have warned violators of the ordinance for the past two days.

MINERS SUFFER FROM HOOKWORM.

(ASSOCIATED PRESS TELEGRAM)
San Francisco, April 28.—Out of 1600 California miners examined by state and federal sanitary inspectors approximately 40 per cent were found to be infected with hookworm, according to a preliminary report of an official survey of sanitary conditions in California mines. Both officials emphasized the fact that the hookworm can be eliminated through the adoption of proper sanitary methods in the mines.

If Your Little Boy Has Colds Follow Piqua Lady's Advice

In Place of Internal Dosing, This Mother Finds "External" Application Best.

A few winters ago when Vick's Vap-O-Rub was first introduced in Ohio from the South, Mrs. S. B. Tobias, 615 Broadway, Piqua, was presented with a jar by her druggist, who requested that she give this preparation a thorough trial, and report the results.

Mrs. Tobias writes:—
"I broke up two or three severe colds on my little seven year old boy, by simply rubbing Vap-O-Rub on his chest and throat, and putting a warm flannel cloth on top to drive it in. It pleased him as he did not have to take anything inwardly. I expect now always to keep Vick's on hand."

The experience of Mrs. Tobias is that of hundreds of Ohio mothers who have discarded the old forms of internal dosing in favor of the external application—Vick's Vap-O-Rub. This comes in salve form, and you just apply it well over the throat and chest, covering with a warm flannel cloth. Leave the covering loose around the neck as the body heat releases the ingredients in the form of vapors. These medicated vapors, inhaled with each breath, all right long, loosen the phlegm and open the air passages. In addition, Vap-O-Rub is absorbed through and stimulates the skin, aiding the vapors inhaled to relieve the congestion. Vick's will be found superior to internal medicines for all forms of cold troubles, from head colds, catarrh or asthmatic troubles, down to deep chest colds, sore throat, croup, bronchitis or incipient pneumonia. In addition, it will be found equally efficacious in soothing and cooling application for surface inflammations, such as burns, bruises, stings, piles, itching and various skin eruptions. 25c, 50c or \$1.00 at all druggists.

Healthy Old Age Brings Happiness

Simple Remedy Promotes Health
By Overcoming Tendency to
Constipation.

Advancing years impair the action of the vital organs. Old age should be the period of greatest happiness, but good health is necessary. Constipation should not be tolerated—it is often the direct cause of ill health.

Headache, belching, biliousness, bloating, drowsiness after eating and other symptoms of constipation can be readily relieved by the use of a simple laxative compound sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. Mr. J. H. Bristol, 1412 Geddes Ave., Ann Arbor, Mich., who is 83 years old, says "Dr. Caldwell's Syrup Pepsin is the best remedy I ever used for constipation and I always have a bottle of it in the house to use when I feel the need of it; it never disappoints."

Dr. Caldwell's Syrup Pepsin is a mild laxative preparation, positive in its effect, acting easily and naturally without griping or other pain or discomfort. For over a quarter of a century it has been the standard

MR. J. H. BRISTOL.

household remedy in thousands of homes. Druggists everywhere sell it for fifty cents a bottle. A trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Illinois.

FEDERATION OF WOMEN'S CLUBS GIVE A DINNER

The Fellowship Dinner given by the City Federation of Women's clubs of the city was attended by over one hundred women, on Thursday evening in the Plymouth Congregational church.

The women assembled in the Sunday school rooms and at 6:30 o'clock a delicious dinner of three courses was served by the women of the church. The tables were arranged in yellow and white, the centerpiece being of jonquills and tulips.

Rev. Grover Diehl, pastor of the church asked the blessing and following the menu, Mrs. Frank Agnew, president of the Federation, made a number of announcements. She also read the purpose of the federation and the federation motto.

Some time soon, the date to be announced later, the art committee composed of Mrs. Henry Fleek, Mrs. Rollin Sook and Mrs. W. B. Nye will have an exhibition of pottery from the various United States potteries in the directors' room of the Home Building Association. The exhibit will be free and the pottery will be for sale.

On Wednesday afternoon, May 3, the Coterie club will present "Not a Man in the House." On Thursday evening, May 4, there will be a May festival at the Second Presbyterian church, the program to be given by eight artists. On Friday, May 5, the Thalian Society of the High School presents "Alice in Wonderland" for the benefit of the library, and Mr. and Mrs. Henry Fleek extended to the federation an invitation to hold a meeting in the open in their garden in Hudson avenue on the meeting day in May.

The speaker of the evening, Mr. W. E. Hopkins, was then introduced and took up his subject of "Community Building." His talk was illustrated by a number of charts and was so arranged as to convey the idea of a journey, from "Jungletown to Ideal Town."

For the first station he had selected an obscure town in Hindustan, where he explained the customs and then gave the single law by which they were governed: "He shall take who has the power and he shall keep who can."

The first station on the road to ideal town was organized labor, which was first effected by caste. People were originally born in a trade of their forefathers. Then guild came into trade and finally we have the unions. The problem which today confronts us in the establishing of an ideal town, are property, distribution, competition, wage system, profit sharing and co-operation. Also there must be a prevention of unemployment for men. New Zealand is greatly ahead of this country for they have worked out the wage problem, having appointed a wage commission who has adjusted the salaries.

The second station was "Civic Center," and to make a town a civic center, there must be community home keeping, and citizens' welfare must be considered first.

Mr. Hopkins told how a meeting had been held but yesterday afternoon and of the determination to have a public welfare bureau of Licking county as a part of the civic department of the new Chamber of Commerce.

Community home keeping means a freedom from political graft and the speaker told how in Germany the mayors and aldermen were forced to go to a school to prepare for these offices before they could become candidates.

Station three was the education center and education means instruction, vocational guidance, habit forming, ethical culture, athletic training for physical development and moral control.

The Community House of social service was outlined as the fourth station and here should be learned, the value of life, care of the body and development of the soul.

The fifth station brought Mr. Hopkins to "Ideal Town" where he said there must be beauty, harmony

MOTHER OF FOUR CHILDREN

How Lydia E. Pinkham's Vegetable Compound Kept Her Well and Strong.

Lincoln, Illinois.—"I have used Lydia E. Pinkham's Vegetable Compound for ten years with good results and I have four healthy children. This summer I was in a very run down condition and the very hot weather seemed more than I could stand, but I commenced taking your Compound in June and from then until September 25th, when my last baby was born, I got along much better than I had before. My baby was a girl and weighed 14 pounds at birth, and I recovered very rapidly which I am sure was due to your medicine. I am well and strong now, nurse my baby and do all my work. I had the same good results with your medicine when needed before my other children came and they are all healthy. My mother has taken your medicine with equal satisfaction. She had her last child when nearly 44 years old and feels confident she never would have carried him through without your help, as her health was very poor.—Mrs. F. CLOYD, 1355 North Gulick Ave., Decatur, Ill.

Expectant mothers should profit by Mrs. Cloyd's experience, and trust to Lydia E. Pinkham's Vegetable Compound. Free confidential advice had by addressing Lydia E. Pinkham Medicine Co., Lynn, Mass.

and business enterprise. Where the welfare of the community was at all times considered before individual or personal liberty. A town where a factory cannot be erected next door to a number of beautiful homes. Where one's neighbor must consider his neighbor and where all homes will be a certain distance from the street. Where there will be parks and play grounds. Also in "Ideal Town" the residents will exercise foresight, and will not condone oversight in town planning. It will be the neighborhood versus the jungle.

The law of the "Ideal Town" as against that of Jungletown will be "Thou shalt love thy neighbor as thyself," and there shall reign liberty and fraternity.

Mr. Hopkins then recited a short prayer and the meeting concluding with the singing of the federation hymn.

SAYS DRINK LEMONADE FOR RHEUMATISM

Relief from rheumatism and sciatica can be obtained by drinking lemonade and avoiding alcoholic drinks.

To get rid of this stubborn disease, however; to stop the twinges, pain and swelling, and drive the poisonous accumulations from the joints and muscles, all generously-inclined druggists will tell you to take half a teaspoonful of Rheuma daily until all misery ceases.

Rheuma is a powerful remedy, because only a powerful remedy can overcome such a terrible disease; but Rheuma acts speedily—the first dose taken and you'll know that you will soon be your healthy, happy self again. T. J. Evans and all druggists know what Rheuma will do, for they sell a great deal of it and guarantee that two 50-cent bottles will overcome rheumatic agony or money back.

RAISINS HIGH IN FOOD ENERGY

According to a bulletin of the United States Department of Agriculture, raisins contain 1635 energy producing food units to the pound, and in this regard they are superior to lean beef. A pound of milk contains but 325 energy producing food units and a pound of eggs but 720. A pound of fresh fish contains but 330 energy producing food units.

Raisins are good in about everything imaginable. They are particularly delicious in bread, pies and puddings, excellent in old-fashioned apple sauce, a welcome addition to any form of breakfast cereal, tasty in cakes of all kinds and the girls say that Raisin Fudge is the finest ever. And best of all, raisins are not only good, but they are good for you. Raisins are Nature's confection, and no one has yet beaten Nature at her own game. April 28 and 29 have been set apart by the state of California as National Raisin Day.

CHARGES AGAINST SCIENTISTS DROPPED

(Richmond, Ind., Item.)

Motions to dismiss the charges of practicing medicine without a license, which were preferred against Mrs. Will Converse and Miss Edith Cloyd, Christian Science practitioners, were filed with Judge Fox, today. He was expected to dismiss the cases from the criminal docket.

Will W. Reller, prosecuting attorney, who filed the charges many months ago, and who made the motion for their dismissal, said today that he is uncertain whether he did not do the two women an injustice when he filed the charges. The charges were the outgrowth of the death of a child in a family living in West Richmond, who, it is said, did not have medical attention during its illness.

Mrs. Converse, who, since the arrest and release on bond, has moved with her son and daughter from the city, and Miss Cloyd, it was represented to the prosecuting attorney, attended the child.

The prosecuting attorney said that he had been observing the work that the Christian Science Church is doing since he filed the charges, and he said he believes that the workers are to be commended for and encouraged in their work.

MAY RESTORE HORSE RACING IN CALIFORNIA.

(ASSOCIATED PRESS TELEGRAM)

San Francisco, April 28.—The next legislature will be asked to pass a bill to restore horse racing in California, according to an announcement made here today. The Golden Gate Thoroughbred Breeders Association, which conducted a meet at the Panama-Pacific exposition last year is at work it was announced, on a measure designed to overcome the objections of those opposed to horse racing because of its gambling accompaniments.

The bill probably will be a duplicate, it was said, of the law governing racing in Kentucky.

MORTALITY OF HORSES.

(ASSOCIATED PRESS TELEGRAM)

London, April 2.—The mortality of horses in training camps in England at this time only exceeds that of army horses in time of peace by two per cent per annum, said an official statement in reply to a question. Approximately 8000 horses have died in training camps in the country since the outbreak of the war. Nearly all the horses imported since the war began came from the United States and Canada.

AMERICANS IN TOKIO.

(ASSOCIATED PRESS TELEGRAM)

Tokio, April 2.—Preliminary steps have been taken for the formation of an association of the American residents in Tokio. The underlying idea is a patriotic one. The organization will hold dinners from time to time for the discussion of those questions which are interesting to the people of the United States.

ABILITY

OF HIGH CLASS SHOWN BY
PHYSICAL CULTURE CLASSES
OF Y. W. C. A.

Third Annual Demonstration Given
Thursday Night on the Y. M.
C. A. Gymnasium.

The third annual demonstration by the department of physical education of the Y. W. C. A. was given in the Y. M. C. A. gymnasium on Thursday before a large and enthusiastic audience and the entertainment will be repeated this evening.

All the participants showed the greatest ability and the result of the most careful training. The costuming was attractive and the wonderful work accomplished by the department was evident in each number. The program was prepared under the supervision of Miss Ada E. Bergquist physical director.

The program opened with the Grecian drill by the evening gym class, and it was a beautiful presentation. The young women were clad in white Grecian gowns with curls and wore the Grecian band in their hair. It was a stately drill, admirably done.

The Staurday morning gym class then gave the Welsh Dance, and were exceptionally vivacious in their Welsh peasant costumes of yellow skirts, black aprons, shawls, and high black hats.

Four little tots, Flora Belle Fundeburg, Rachel Ward, Frances Taylor and Ruth Ludwig, played the singing games, Soldier Boy and Looby Loo.

The wand drill which abounded in action and vim, was perfectly given by the members of the evening class, attired in their regulation gymnasium costumes. Following this a number of folk dances were presented by the members of the Saturday morning class who wore the bloomers and middies with the bright red ties and hair ribbons. The dances were the Hopp Mor Anika, Swedish, I see You, Swedish, Vineyard Dance, English. The first part of the last dance represented the planting of the vine, the second the gathering of the fruit and the third the putting away of the vine.

Eight young women clad in a gown of red and green crepe paper to resemble the poppy gave the aesthetic dance "Poppies" and the spectacle presented was a beautiful one. Much fun was experienced in the relay race which concluded with the participants walking on their hands and feet.

In the basket ball game between the Y. W. C. A. girls the Reds won by a score of 8 to 4.

The Saturday morning class then gave the pizzicati dumb bell drill and the evening class gave a queer little Dutch dance called the wooden shoe dance. It was vigorously applauded and they were forced to respond to an encore.

The program concluded with the girls being seated on the floor to form the letters Y. W. C. A., and as the lights were extinguished they held red lights which made the letters.

The program as a whole bespoke the great earnestness in the success of the physical work, which is left by both the instructors and the students, and its success should insure a large attendance when the program is repeated this evening.

City of Many Names.

No capital city has changed its name so often as Constantinople, which was originally known as Lygos. In B. C. 458 this name was discarded for that of Byzantium, which remained in use until the capture of the city by Septimus Severus, who rechristened it Roma Nova. On making it his capital Constantine the Great endowed it with this own name, and it is still known as Constantinople among western nations. This name, however, is ignored by the Turks, who since they obtained possession of Constantinople have preferred to call it Stamboul.

England's Premier.

The premier of Great Britain is infinitely more powerful in British politics than the king. The premier is virtually the head of power, under the parliament, while the king is to all intents and purposes merely a figurehead. As the late Mr. Bagehot remarked, "The king is a part of the ornamental side of the British constitution and that only."—New York American.

Rebuked.

A commuter, in a tremendous hurry, entered a restaurant. "What have you for lunch?" he inquired of the waitress. "Corn, peas, cabbage, lettuce, means!"

"Don't fool with me, woman! Do I look like a rabbit?"—Everybody's.

Both Ways.

"I always like to meet a fellow who came from a farm," remarked Congressman Fluddub.

"Yes?"

"Yes. You can advise him to go back to it if he isn't a success and congratulate him on leaving it if he is."—Louisville Courier-Journal.

Certified Checks.

To certify a check is to write or stamp the word "good" or its equivalent on the face of the check, with the signature of the cashier or paying teller. This means that there is cash enough in the bank to meet the check and binds the bank to pay it.

As He Put It.

"Why didn't you go out for track racing yesterday instead of going to see Ruth?"

"Oh, a miss is as good as a mile any day."—Yale Record.

XENIA STRIKERS RETURN TO WORK; GET INCREASE

(ASSOCIATED PRESS TELEGRAM)

Columbus, April 28.—Approximately 800 cordage and twine workers at Xenia, who have been on strike for a week, returned to work today as the result of a wage increase awarded them last night by the companies concerned. The settlement was made with the aid of State Industrial Commission.

The increase varies from five to 13 1-3 per cent., the average being about 9 per cent. The settlement will add approximately \$25,000 to the annual payroll. Between 550 and 600 men have been out for a week at the three mills of the Hoover and Allison company, and 200 have been on strike since Monday in the cordage department of K. A. Kelly company.

PRICE OF SILVER HIGHER THAN IN LAST TEN YEARS

New York, April 28.—Bar silver was quoted at 71 3-8c an ounce today, the highest price in almost a decade. A month ago the quotation was 69 3-4c, early in the year 56c, and just before the war 52 1-4c was a fair quotation.

Withdrawal of gold as a medium of circulation from practically all of the markets of the world except this country, accounts almost fully for the sensational advance in silver.

The Killed Evzone.

The Greek soldier may present to some a highly humorous picture in his ballet skirts and tunic. Despite his peculiarities of dress—which, by the way, are scarcely more peculiar than those of some other nations—he is an excellent fighting man.

The evzone, as he is called, would no more abandon the skirt than would a Scot his kilt. It is a part of his national honor, a part of his personal being. It is a right handed down to him from ancient times. A bar relief of the soldier who fought at Marathon shows him in similar costume. His costume is no ephemeral piece of clothing, for it is worn with the dignity of ages behind it. The evzones are ignorant of fear, and if they look anything but soldierly their appearance is belied by their ability to fight under extraordinary conditions. — Syracuse Post-Standard.

Percentage.

"That's some hat you've got there, Bill. It must have set you back all of \$10."

"It did, but I figure I'm saving money on it at that."

"How do you make that out?"

"Well, when I wore a two dollar hat I had to give up 5 per cent of its value every time I checked it in a fashionable restaurant. With this one it costs me only 1 per cent."—St. Louis Post-Dispatch.

APOPLEXY

CAUSED DEATH OF CHARLES
HILLIER, WELL KNOWN
RAILWAY MAIL CLERK.

Never Had Recovered Fully From an
Accident Which Befell Him
Last October.

Charles Hillier, 57 years old, well known railway mail clerk, died at his home 296 West Church street this morning at 8:30 o'clock. His death was probably due to a stroke of apoplexy with which he was seized some time Wednesday night. He had been in ill health for several months, suffering from a mild form of paralysis, which followed an illness last January when he suffered from pleurisy, pneumonia, and grip. While friends of the family realized that he was quite ill, the announcement of his death was a severe shock to the family and friends alike.

Mr. Hillier had worked but a few days since his injury last October, when he was run over by his own automobile. At that time he suffered numerous bad cuts and bruises and severe nervous shock, but had apparently recovered from the experience and resumed his duties shortly before Christmas. He made three trips on his run between Pittsburgh and St. Louis when he was again compelled to give up the work. The accident which he suffered was a peculiar one. He had just purchased an automobile and was not entirely familiar with its operation. He stalled the machine early in October, "killing" the engine. He left the driver's seat without disengaging the clutch and when he cranked the engine, the machine lunged forward, knocking him down and ran over him. He was not thought to be badly injured but recovered slowly from his injury.

Wednesday night he was restless most of the night but in the early hours of the following morning he sank into a sleep which the family thought was a relief for his restless hours of the night before. When he continued the sleep through the morning, the family became apprehensive and summoned a physician who found symptoms of apoplexy. He continued to sleep until his breathing became more difficult and the end came. He never regained consciousness.

The deceased was a native of Zanesville. He was born in that city Dec. 12, 1852, being the son of Isaac Hillier, who still is living and who is one of the oldest Odd Fellows in the state.

It was about 24 years ago that Clarence Hillier entered the railway mail service. Two years later he was assigned to a run on the Pennsylvania Lines and came to this city to make his home. He has continued regularly in this employment until his illness last fall.

He was a man unusually devoted to his duty, taking extraordinary pride in perfecting himself for the peculiarly exacting work. He was a

man always ready to lend a helping hand to fellow employees, often sacrificing his own pleasures to work extra for a fellow clerk when the occasion arose. He was helpful to younger men in the service, often spending his own time assisting beginners over the rough places in their chosen work.

To his family he was devoted and loyal and his off days were spent at home where he found his greatest enjoyment in the family circle.

He was married in this city to Miss Fannie Atherton. To this union there were born five children who with the widow survive. The children are: Mrs. Homer Jones, of this city, Charles Franklin Hillier of Norfolk, Va., until recently in Akron, Helen L. and Gerald E. of the home. The son, John A., has just been made manager of the Norfolk branch of the Goodrich Rubber Company of Akron.

He also leaves three brothers, Edward of Washington, D. C.; Thomas of Mt. Vernon and Coulter of Zanesville, one sister, Miss Alice Hillier of Zanesville, besides his aged father.

Mr. Hillier was a member of the Odd Fellows lodge and of the Modern Woodmen, and it is probable that these orders will take part in the funeral service which will be held Monday. No definite arrangements have been made for the services, pending the receipt of word from the sons who have been notified of their father's death.

Told Him How.

A minister who lives in a small town is noted for his sentimentality both in and out of the pulpit. As he was coming down the street one day a man accosted him with, "Sir, can you tell me how to find a sheriff's office?"

"Yes, sir," was the ministerial reply. "Every time you can \$5 spend \$10." And he walked on, leaving the astonished man gazing after him.—Harper's Magazine.

Saving Labor.

"This agricultural journal states that apple trees ought to be planted on a slope."

"What's the idea?"

"So when the apples ripen and drop off they will roll down to the farmer's doorstep, I suppose."—Louisville Courier-Journal.

Two Versions.

A man says, If the shoe fits, put it on.

A woman says, If the shoe fits, get a size smaller.—Life.

Don't tell all you know. Keep a little for a nest egg.

Ugly.

"What an ugly disposition he has!"

"Yes. You remember how cross my husband is the first week of every year when he gives up smoking?"

"Yes."

"Well, he's that way now."—Detroit Free Press.

OHIO LAW

OF STATE COMPENSATION FOR ACCIDENTS POPULAR WITH EMPLOYEES.

Member of Ohio Industrial Commission Speaker at Closing Session of Columbus Convention.

(ASSOCIATED PRESS TELEGRAM)
Columbus, April 28.—Commissioner T. J. Duffy, of the Ohio Industrial Commission told members of the International Association of Industrial Accident Boards and Commissions at the closing session of their meeting here today that despite political interference and obstacles placed in the way by private business interests, 18,124 employers having in their hire 800,000 men were on January 1, 1916, subscribing to the workmen's compensation insurance fund.

"These figures," he said, "tell more forcibly than any words of mine do that the employers of Ohio think of the state insurance fund after having seen it tested for the last four years." In addition to the employers included in the other figures, Mr. Duffy said, 1,351 employers had been granted authority to carry their own risks. These have in their employ 225,000 men he stated.

Royal Meeker, United States commissioner of labor statistics read a paper in which he declared "the danger of destroying the independence of the working man and transforming him into a mollycoddle so much feared by some employers, is purely imaginative."

MILITARY CROSS GIVEN.

(ASSOCIATED PRESS TELEGRAM)
British Headquarters in France, April 23. via London, April 27.—Among those who received the military cross in a recent presentation of decorations by the division general in the presence of units of the fighting force, was Second Lieutenant Arnold Whitridge, Yale, 1914, and son of F. W. Whitridge of New York, president of the Third Avenue Railway Co.

GERMAN ARCHITECT DEAD.

(ASSOCIATED PRESS TELEGRAM)
Berlin, via London, April 28, 11 10 p. m.—Prof. Bruno Schmitz, Germany's best known architect is dead. Prof. Schmitz built the monument "the battle of the nations" at Leipzig, and many other famous monuments.

Lowell's Dread of Old Age.

I have said that Lowell was the youngest man I ever knew. It is also true that I never knew any other man who had a greater dread of growing old than he. He would sometimes say to me "I was twenty-five years the youngest." "Oh, you'll begin to feel it pretty soon."

The last time I saw him he gave me a cautious and somewhat pathetic indication of his interest in this subject. I happened to be in Boston for a day and went out to see him in the teeth of a terrible March blizzard. I thought he seemed rather lonely. He told me that Hopkin had called upon him not long before. He said that he looked well and seemed to be in good health, but he noticed that when he went out he was a little awkward in getting down the front steps. When I left Lowell came to the door with me and stood there, evidently waiting to see how I negotiated the front steps. At the age at which I then was there was no reason why there should be anything the matter with my action. But the incident was characteristic of Lowell and of his intense interest in the subject of youth and age.—E. S. Nadal in Harper's Magazine

How to Write a Moving Picture Play

MANY people have asked us this question. The best way we can tell you is to submit a sample scenario. Bertha Clay, a suburban society queen, is found in a snowdrift at 4 o'clock one afternoon, where she had become lost from her limousine the night before on the way home from a bridge party.

(Screen) "That car must have got away from me"

Her rescuer is a popular real estate agent who has just moved into town and who is really Diamond Jake, the celebrated second story man. He carries her home, not noticing that her diamond necklace, valued at \$100,000, has fallen off on the front piazza.

(Close view of diamond necklace, showing real facets.)

The necklace is swallowed by a pet alligator that Bertha has been taming to hitch to the village snow plow. The agent goes out, the necklace is missing, he is arrested and thrown into Sing Sing, where he stays for thirty years. Bertha is cast away on a desert isle with the alligator, starves, finally cuts him up, eats him, discovers necklace, hurries back to Sing Sing on first movie steamer, arrives in time to see Diamond Jake about to be shot for taking the part of new prison reformer, who proves to be Bertha's son.

(Screen) "Are you ready? Shoot!"

Bertha lassoes guard with necklace, throws alligator skin over Jake and takes him back to snowdrift, where they are married by an all Boston clergyman.—Life.

Mrs. Charles Butler delightfully entertained the members of the Needlecraft club at her home in North Tenth street on Thursday afternoon. The hours were spent in needlework and music. A delicious luncheon was served by the hostess to the members and guests, Mrs. Taylor of Michigan, and Mrs. John Poulton.

The next meeting will be held May 11th at the home of Mrs. Clyde Daniels at her home in Central avenue.

The gymnasium class of the Y. W. C. A. drilled by Miss Berquist, the physical director, gave an interesting exhibition of the work at the Y. M. C. A., on Thursday evening. The exhibition consisted of drills, with the hand apparatus, folk dances and aesthetic dancing, all of which were given in costume. The entertainment will be repeated at 7:30 o'clock this evening.

The Good Time Sewing club members were entertained at the home of Mrs. Stanton Hickman in Ash street on Thursday afternoon. The next meeting of the club will be in two weeks at the home of Mrs. William Cunningham in Buckingham street.

The members of the Kantbeatus Euchre club were delightfully entertained Monday evening by Miss Agnes Johns at her home in South Third street. Misses Irene Winter and Martha Friel received the trophies. A dainty luncheon was served to the members and three guests: Misses Bwinadette Winter, Dorothy Halterman and Margaret Winter.

The Krochea club met on Wednesday afternoon at the home of Mrs. S. C. Morrison in North Fourth street. After the regular business session crocheting and needle work was indulged in and a memory contest was enjoyed. Mrs. George Shultz going the fortunate winner of the first prize, while the consolation prize was presented to Mrs. G. H. Matzenbach. A dainty luncheon was served by the hostess. The club adjourned to meet on Wednesday afternoon, May 10th with Mrs. L. Horn on the Hebron road.

Miss Estella Martin entertained the members of the B. B. B. club on Thursday evening at her home in West Church street. The hours were spent with needlework and a luncheon was served. The table was arranged with Easter lilies and tulips. The guest of the club was Mrs. Lynn Cramer.

Mrs. Harry Inscho was the entertaining hostess to the Jolly Stitches club on Thursday afternoon at her home in Elmwood avenue.

The hours were spent in crocheting. Mrs. Ed Wright and Miss Mable Wright gave several very interesting recitations. A dainty luncheon was served the members of the club and four guests: Mesdames Ed Wright, Bell Hankinson, Clarence Hill and Mable Wright.

A most delightful few hours were spent by the members of the Carroll Bowling party at the alley at the Pastime on Thursday evening. The recent arrangement made by the Pastime to feature bowling for women has made a great appeal, and the alleys have been kept busy. On Thursday evening some good scores were made by the young women. Those in the party were Misses Irene Cosgrove, Nelle Frenier, Irma Myers, Agnes Murphy, Kathryn Schaller, Genevieve Kennedy, Ida Linden, Anna Murphy, Charlotte Linden and Lucille Webber.

The Cedar Run circle will meet with Mrs. Jennie Holtz on May 7th. As this is our annual picnic let there be a full attendance.

THE TOWN SLOUCH

By ELLIS M. CLARKE.

When Cy Cawkins Went to Spellin' School He Always Spelled Wrong So to Get a Chance to Sit Down.

What's in a name? That sure depends Upon whose name it is, my friends. Full of cognomens do not "pan"—So much depends upon th' man.

Th' fast young man is naturally an adept at rannin' bills.

The girl who marries for money deserves to buy a gold brick.

Are you nervous, weak and depressed in spirit? Build up your strength with DR. GREENE'S NERVURA. It is the unfailing help for this condition. Dr. Greene will give medical advice by mail free to all who write him at his office and laboratory, 271 Albany St., Boston, Mass.

The Westerner's Ideal.

The westerner's willingness to give up home, neighbors and old associations for the sake of a "claim" on the prairie is not sordid. His stern preoccupation with "getting ahead" is a part of his inherited passion for personal independence. I have seen a gray hue steal over the face of the settler when speaking of some one who had "lost his farm" and "had to go out by the day." For the wage earner's lot the true born westerner feels a dread quite incomprehensible to cities and to old communities. If he ruthlessly sacrifices comforts and culture, it is that he may win a footing of his own and so call no man master. Once he has cleared off the mortgage, improved his place and gained a soothing sense of financial security, he will provide books, piano, music lessons, travel and college education for his children, even if in the meantime his own capacity to enjoy has been atrophied.—Professor Edward Alworth Ross in Century.

Women and the Violin.

"A distinguished violinist of this city," writes Philip Hale in the Boston Herald, "was talking recently about women who fiddled and now fiddle. He complained that nearly all of them classed as great erred in this—they tried to play like a man; they wished it said of them that they had a virile tone. He did not except Lady Halle, Maud Powell or Miss Parlow. 'The only great woman violinist I remember was Teresina Tua, and her greatness consisted in the fact that she always played like a woman. She was womanly and fascinating.' Saint-Saens once said apropos of Augusta Holmes that when a woman wrote for the orchestra she was noisier than any man because she wished to show that she was not a poor, weak thing on account of her sex."

Gambetta's Table.

There is a curious story told of the table at which Gambetta wrote. A previous owner, General Lahitte, minister for foreign affairs in 1890, dismissed his confidential servant because he believed he had stolen a large sum of money in 1,000 franc banknotes. Years afterward, when the table had to be repaired, the joiner employed for the work found the missing bundle of banknotes between the mahogany board of the table and the drawers below. They had lain there unnoticed for fourteen years. Unfortunately the story does not go on to say that the poor servant and his mistaken master were alive at the time of the discovery and that the one's character was cleared and the other's confidence restored.

The Japanese Hades.

The Japanese language has no equivalent for our word "hell," but has the word "jigoku" instead. Jigoku consists of, first, eight immense hot hells, ranging one beneath the other in tiers. Each of these hells has sixteen additional hells outside its gates, like so many antechambers, so that there are in all 136 hot hells. Second, there are eight large cold hells, each with its sixteen ante-hells, making the same number of cold that there are of hot hells. Besides these 272 hot and cold hells for offenders of the common sort, the wily Japs have twenty mammoth "hells of utter darkness," into which will be consigned the spirits of children who take the name of Dai Butsu, or Great Buddha, in vain.

As to Papa's Wealth.

"Mamma, what is papa worth?" "I don't know, dear, but it must be a great deal. I heard him say once that he had put \$100,000 into a mining company's stock."

"What's the name of the mining company?" "Wildcat, I think he said. I presume they named it that because it's in some unsettled country away out on the frontier."—Chicago Tribune.

Some English Names.

It is a difficult matter sometimes to spell an English name from hearing it pronounced. For instance, Farquharson is pronounced Fahrson. This, however, is "simple as A B C" compared with the weird renderings of some other names. Who, for instance, would dream of pronouncing Woolfardisworthy Oozry, Wrenfordisleigh Rensley or Wywardisbury Raysbury?—Pearson's.

Papa Did Too.

"This is my son Frederick, Mr. Fossdick," said Mr. Glanders proudly, introducing his five-year-old boy to his caller.

"Well, Frederick," said the caller, "do you obey your mamma?"

"Yes, sir," replied Frederick promptly, "and so does papa."

Her Cultivated Taste.

"How is your daughter getting on with her music?"

"Very well," answered Mr. Cumrox.

"She has got along so far that when I ask her to play anything I like she looks naughty and says, 'The idea!'"

—Washington Star.

His Specialty.

"Do you speak several languages, father?"

"No, my son," replied Mr. Henpeck,

gazing sadly at his wife, "but I do know the mother tongue."—Judge.

Granville

[Special to The Advocate]

Granville, April 23.—Broadway paving, like the spring planting and the spring house cleaning, has been delayed by the most unpropitious weather remembered by the "oldest inhabitant." The concrete mixer and the big steam roller to be used in the paving contract were received several days ago. The heavy rains of the past few days have stopped operations with the steam shovel, otherwise the grading would have been completed from Main street west. Four car loads of curbing are on the ground, the gas company expects to finish its work this week, the "wandering house" that has blocked traffic in Elm street has turned into prospect street, and—things keep inchin' along.

Rev. and Mrs. Carman of Marietta, who have been guests of Dr. and Mrs. R. S. Colwell since Monday, left today for their home.

There was a meeting last evening of the executive committee of the Granville Festival Association in Denison conservatory to arrange details of the grand event of the year, the coming of the Russian Symphony Orchestra of New York City on May 8. The orchestra concert will be given in the Baptist church in the afternoon, for which a special half holiday in all the schools is to be granted. In the evening of that day the Engverson chorus of two hundred voices will sing the "Cretation," accompanied by the Russian orchestra. The soloists for the oratoria are to be furnished by the orchestra organization, and they will be Marie Stoddart, soprano; Don Beddoe, tenor; Wilfred Glenn, bass. These are all artists of recognized merit with a national reputation, as all have appeared on the programs of some of the most widely known festivals in the United States. Granville is fortunate indeed in being able to hear two such fine musical events in one day.

Arrangements are being made for additional seats in the church, and those in the out-of-town communities desiring to attend either or both of these great concerts should send their orders at once to Mr. W. P. Ullman of the publicity committee. Already many requests for seats have been received and it would be wise to get in line for there is bound to be a rush.

Among the men who have helped boost the Festival Association this year and have made it possible to enjoy two notable concerts in one day by this great orchestra, are the men composing the board of trustees, who have generously guaranteed the second performance, the first having been raised by the advance sale of tickets. The personnel of the board is: President C. W. Chamberlain, Mr. John Sutphen Jones, Mr. Charles Browne White, Mr. James A. Huston, Dr. L. E. Davis, Prof. Malcolm E. Stickney and Mr. A. H. Helsey.

Mr. and Mrs. John Graham left last night for the East where they will visit relatives in Newark, N. J., for a few days before going to Saratoga, N. Y., to attend the National M. E. Conference next week.

Mrs. Helen Hunt and Mrs. T. F. Chambers have been attending a district meeting of Missionary Work-

ers' conference in Indianapolis this week.

Mr. Mark Eddy who has been making his home with his son Will in Cleveland has been visiting old friends in Granville this week.

Friends of the Shephardson family will be interested to learn that "Love's Crucible," written by Mrs. Mary Shephardson Pomeroy of Boston, daughter of the late Dr. Daniel Shephardson, founder of Shephardson college, has been dramatized and will appear on the screen at the Alhambra theater next Wednesday and Thursday. This story of the redeeming power of love was written by Mrs. Pomeroy shortly before her death which occurred suddenly while she was on her way to a symphony concert. Mrs. Pomeroy was the wife of a leading physician of Boston and her sympathies had been enlisted many times in behalf of the victims of commercialized vice. The book was published after her death and has enjoyed a wide circulation.

Prof. and Mrs. Walter J. Livingston observed the sixth anniversary of their wedding yesterday and were given a joyous ovation by a dozen of their closest friends, who invaded their home at 6 o'clock in the evening armed with well filled baskets, the contents of which were soon in evidence on the beautifully spread dinner table centered with a great bunch of pink roses and snap dragons, which was the gift from the club in honor of the day. Other gifts appropriate to the occasion marked the event, one of which was a big "hickory nut cake," sent from home, and which was "cut by the bride," with the customary ceremonies. The surprise was complete owing to the invitation to the happy couple to dine that evening at the home of two of the conspirators. Covers were laid for Prof. and Mrs. Livingston, Prof. and Mrs. R. B. Pence, Mr. and Mrs. George Stuart, Mr. and Mrs. Roe Morrow, Mr. and Mrs. Ben Woodbury, Miss Addie Slack and Mr. Herbert Wright, all members of the U. D. club.

The program of the Denison orchestra which was given in Recital hall last evening before a representative student audience under direction of Prof. Karl Eschman, merits the highest praise. The conductor has his players well in hand and the latter half of the program was given with a swing and a readiness of response gratifying to the conductor and appreciated by the audience. The final number, the "Overture" from Orpheus in the Underworld, finished in a whirlwind of volume and of tempo that carried the audience off their feet and elicited an encore. Below is the program:

- Norwegian SuitLudwig Schytte
- Peasant's Dance
- Eventide
- Rhapsody
- (a) Russian Melody Sung by the Boatmen of the Volga.
- (b) Cossack LullabyJ. Jiranek
- In ArcadyEthebert Nevin
- A Shepherd's Tale
- Shepherds All and Maidens Fair.
- Lullaby
- Tournament
- March and Procession of Bacchus, from Ballet "Sylvia"Leo Delibes
- Mock Morris DancePercy Grainger
- Overture Orpheus in the Underworld
- Offenbach
- Miss Harriet Ticht of Cleveland, formerly of Granville, is visiting at the home of Mr. and Mrs. L. A. Austin in South Prospect street.
- Mrs. B. I. Jones who has been

spending the winter in Tampa, Fla., with her son and daughter, Mr. and Mrs. Grove Jones, returned yesterday to her home in East Broadway. On the return journey she stopped for a call at the home of Mr. and Mrs. John Shaffer, who are pleasantly located in a house of their own in Jacksonville, Fla.

Friends of Mr. Henry R. Colby, a well known Denison alumnus, will be interested to learn that he has severed his connection with the Mergenthaler Linotype Co. in which he has had headquarters in Cincinnati, to become district sales manager for the Delco company of Dayton. This company has just put on the market the "Delco-light" a device to furnish electric light to country homes and farmer. Mr. Colby is to have offices and show rooms in Memphis, Tenn. He expects to visit Granville before entering on his new work.

Puzzle of the Eagle and the Whale.

There are two animals that puzzle naturalists more than any others. They are nature's submarine and aeroplane, the whale and the eagle. It is known that whales occasionally descend as much as 3,000 feet below the surface of the sea. Why they are not injured scientists have yet to discover. It is this pressure which prevents a modern submarine descending even 300 feet, let alone 3,000.

Eagles have been seen through telescopes to fly with apparent ease from 20,000 to 40,000 feet above sea level, at that height no human being can live owing to the rarefaction of the air. How the birds live and fly at far greater heights than man can endure for long is a question still to be answered.—Pearson's Weekly.

Obituary

Clara Elizabeth Anderson.
Mrs. Clara Elizabeth Anderson, 38 years old, wife of Hudson H. Anderson of Krieg street, died this morning at 2 o'clock at the home, of complications. She leaves a week old babe.

Mrs. Anderson was born, July 12, 1876, in Belmont county. She was the daughter of J. F. Yause of Maple avenue. She has been a resident of Newark for eleven years.

She is survived by her husband, three children, Jesse, 9 years old, Lloyd six years old and Phillip one week old. Her parents and one brother, Clyde Yause, also survive.

She was a member of the Maple Avenue Christian Union church. Arrangements for the funeral have not been completed.

The funeral will take place Sunday afternoon at 1:30 o'clock from the Christian Union church in Maple avenue and interment will be made in the Wilson cemetery.

Clyde Williams.
Clyde Williams, 18, living four miles south of the city, died early last evening at the Newark Sanatorium, following an illness of five days. Death was due to typhoid pneumonia. Funeral services will be held from the Central Church of Christ in North Fourth street, Monday morning at 11 o'clock, the Rev. W. D. Ward officiating. Burial at Cedar Hill cemetery. The funeral will leave the Williams home at 10 o'clock Monday morning for the church.

The deceased was born in Madison township, August 16, 1898. He lived at home until three months ago when he came to this city and secured a position with the Baltimore & Ohio railway company. He attended Newark high school for two years.

Besides his parents Mr. and Mrs. Edward Williams, he leaves to mourn his death, three brothers, Arthur, Howard, Russell and two sisters, Cora and Blanche.

Miss Anna Wooley.
Miss Anna Wooley, 38, died early this morning at the home of her parents, Mr. and Mrs. John Wooley, 100 South Second street, following a short illness. Death was due to complications. Funeral arrangements have not been made.

The deceased was born in Gloucester, England, November 16, 1877, being 38 years, 5 months and 21 days old at the time of her death.

She leaves to mourn her death, her parents, three sisters, Mrs. C. H. Mort, Mrs. F. O. Peck, Mrs. W. C. Woolard and four brothers, James, Thomas, John, Jr., and Harry all of Newark.

Funeral of Mrs. Meister.
The funeral of Mrs. Jacob Meister will be held at St. Francis de Sales church on Saturday morning at 9:00 o'clock. The body was taken to the home of Mr. John Wageneheim, 51 Stanberry street.

Card of Thanks.
We wish to extend our sincere thanks and appreciation to our many friends and neighbors who so kindly assisted us in the hour of dark despair, in the sickness and death of our child, George H. Rein; and the most beautiful floral offerings.

THE STRUGGLE FOR EXISTENCE

is an almost everyday matter to the young business man just launching a new enterprise.

If this young man will permit himself to discover the helpfulness of an established banking connection, he may find unexpected and welcome assistance which is, at the same time, strictly in keeping with good banking practice.

THE ADVOCATE'S DAILY PUZZLE.

MADAME GADSKI AS BRUNHILD.

The proud and haughty Brunhild is for you a fitting part. But Siegfried's role with you we wouldn't act. For we fear, so fierce your vengeance, in the fervor of your art. That the mimic slaughter might be one in fact.

ANSWER TO YESTERDAY'S PUZZLE.

Left side down—eye at right shoulder.
Lower left side down at right knee.

HEWITTS HERE SUNDAY INSTEAD OF WILKES CLUB

The Hewitts team of the Capital City League will be the opposing battalion against the Fitzsimmons club Sunday at Wehrle Park, not the Wilkes as was announced yesterday. A change was made in the playing dates which brings the Hewitts to Newark.

Edwin Booth and Lincoln. It has long been known that Edwin Booth felt deeply the grief that it was one of his own family who took Abraham Lincoln's life. This little story, which the editor of a well known magazine is fond of telling, emphasizes that fact:

When I was a boy I lived in Chicago near Lincoln park. One when Edwin Booth was playing in the city I went with another boy to hear "Hamlet." I was permitted to spend the night at my friend's house, but went home for breakfast.

At that early hour Lincoln park was deserted, but as I drew near St. Gaudens' great statue of Lincoln I saw a carriage approach, driven by a negro coachman. It stopped before the statue, the door opened and out stepped Edwin Booth. Curious to see what would happen, I stepped behind a clump of shrubbery where I might watch unobserved.

The great actor stood for a moment before the wonderful bronze with his head bowed. Then he took a rose from his buttonhole and laid it at the base of the statue. He entered the carriage and was driven away, utterly unconscious that the incident had been witnessed by one who would ever after cherish its memory.—Youth's Companion.

Many Uses of Graphite. Few people begin to realize the range of uses to which graphite is put, says the Scientific American, for it is an essential though minor ingredient in a great number of unexpected connections as common as that of lead pencils. With many of these the graphite man is himself unfamiliar, beyond the simple fact that this or that manufacturer purchases from him, for in such uses it is apt to represent part of a secret process.

Lead pencils, lubricants, electrical conductors and black polishes and paints are prominent conventional uses, but it is liable to be present pretty much anywhere that anti-friction, unfading blackness, heat resistance, electrical conductivity or noncorrosiveness is a desirable property, and the fact that without graphite the derby hat, as we know it could not be, is an example of its importance as an incidental ingredient.

"Money is a joke," exclaimed the rich man, contemptuously. "Well, it isn't every fellow who can get away with it," replied the impecunious one.

A Bright Prospect. "For five years," said the commercial traveler, "I had called upon a certain draper in Scotland and never got an order. I mentioned it to the head of the firm. 'We are dead w. B. & Co.," he said. 'Their traveler can't for twenty years before he took an order, and if you'll continue to call for twenty years I'll not say but you may get one.'—Manchester Guardian.

Firedamp. Firedamp is the ordinary name for the carbureted hydrogen which issues from "blowers" or fissures in coal seams. It is inflammable and when mixed with air in certain proportions is highly explosive. Its ignition is attended by the danger of an attendant explosion of coal dust.

Of Course. "With people cooking with electricity, one can no longer heap coals of fire."

"Never fear. Assuredly they will perfect an electrical apparatus which will answer the same purpose."—Louisville Courier-Journal.

FINE MONUMENT TO "JOHNNY APPLESEED."

Columbus, April 28.—A monument to the memory of John Chapman, generally known as "Johnny Appleseed" because of the numerous apple trees he planted in the early days, will be dedicated at Fort Wayne, Ind., next Friday with the assistance of Dean Alfred Vivian of the agricultural college at Ohio State University.

The monument fund was started by students in the horticultural school at Ohio State University and has been contributed to by fruit growers all over the Middle West. "Johnny Appleseed" died at his home near Fort Wayne.

Condition Improving.
The condition of Mrs. Lorena Warwick of Fourth street, who underwent an operation at Grant Hospital, Columbus is improving. Dr. Fletcher of that city performed the operation.

To Attend Shriners Meeting.
The following went to Columbus today to attend the big Shriners initiation: Walter Sperry, Arthur Haynes, John Swartz and Jud Reese. One Drunk Fined.
One plain drunk was arraigned before Mayor Bigbee this morning and a fine of \$5 and costs was assessed.

When Beethoven Played.
In that moment I could have sworn the pianist became a little black man with a lion's head and eyes that burned. The brow was ponderous with brooding, and the lips were straight with suffering. The ill fitting coat was cut as once long ago coats were cut with a high collar—lumpy about the shoulders; trousers too ample. Then I saw again the wild, tossed hair, the gloomy brows and eyes that burned beneath with strange fires, and as he played the white keys faded and the great black sweep of the concert grand and the huge headed man stood quite alone, shaken by blasts of music that were hot as passion, bitter as salt tears, penetrating as the infinite stars. "Heavens," said some one at my elbow, "that is Beethoven!" Then the music stopped. I tell you it was still as morning, and a little, swarthy man grinned and bowed without a hand to clap him for full ten deep breaths, and when it came, the harsh, long rush of clapping hands, it seemed that great golden things were being smashed and left fall down jarring to the earth.—Exchange.

Clever Amateurs.
Dozens of old graduates were back, and they talked a lot about themselves and a lot more about others not so fortunate as to attend.

"Most of our old crowd are married and happy," said one.

"Married, anyhow," said another, with the grin that always accompanies this silly joke.

"I accept the amendment," returned the first speaker, "but chiefly on account of poor Billy Tompkins. He had an unfortunate marital experience."

We hadn't heard of it and begged for particulars.
"Why, the girl he married turned out to be a professional pickpocket."

"The men who had first spoken sighed, but his eye twinkled."
"Well," he observed, "I guess the rest of us drew some pretty clever amateurs—what?"—St. Louis Post-Dispatch.

Where Leap Year Is Legal.
In Scotland the leap year privilege for women appears to have a legal foundation, for many years ago the following law was passed: "It is statute and ordain that during the reign of his majesty blisist Megeste, for ilk yeare knowne as leape yeare, ilk maiden indyde of bothe highe and lowe estate shall hae liberte to bespeke ye man she likes; albeit he refuses to talke her to be his lawful wife, he shall be mulcted in ye sum ane pundis or less, as his estate may be; except and awis gif he can make it appeare that he is betrothit ane ither woman he then shall be free."—London Express.

(ASSOCIATED PRESS TELEGRAM)
Berlin, April 28. (By wireless to Tuckertown, N. J.)—An official report issued today by the German admiralty announced that three German aeroplanes yesterday dropped 31 bombs on the Russian battleship Slava. Several of the bombs are said to have taken effect and fire on the battleship was distinctly observed.

RUBBER COMPANY CLOSES PLANT; 1800 MEN ARE IDLE

(ASSOCIATED PRESS TELEGRAM)
Youngstown, O., April 28.—The Republic Rubber Co.'s plant here, employing 1800 men, was closed today. The notices posted by the company said the plant was shut down for inventory, but the prevailing opinion is that the action was influenced by demands made this week by machinists for an eight-hour day with ten hours pay, closed shop, and double time for holidays, Sundays and over time. President Thomas L. Robinson said the company might issue a statement later, but declined to explain the action this forenoon.

In a statement issued later, President Thomas L. Robinson said the plant was closed for inventory but would not re-open because of the demands of the employees. He said: "The Republic Rubber Co. will not submit to the excessive demands of labor, including the closed shop and eight-hour day. In the 15 years we have operated we have not discriminated against union men and many of them as well as others are not in sympathy with the present attitude of organized labor. We will re-open when the men are willing to work under present shop conditions and wage rates to be fixed. Some of our loyal employees have been threatened and coerced and keeping the plant closed is largely a measure for their protection."

Empty Assurance.
"Biggins is always willing to apologize when you show him he's in the wrong."
"Yes, but he invariably apologizes in such a way as to open up the possibility of further controversy."—Washington Star.

Book Learning.
"Do you think we have too much book learning?"
"There isn't any other kind. As soon as a man finds out anything worth knowing he proceeds immediately to write a book about it."—Washington Star.

Spiraea Awaken Early.
Just as if it had an alarm clock to awaken it, the spiraea opens its eyes in the morning before its companions are stirring. It's one of the earliest risers among the flowers, and you'll find it often before the moon flower and other night bloomers have gone to bed. It grows in the rich soil of wet valleys, often from three to ten feet high, where it is called goat's beard. Its tiny, creamy flowers are born in gorgeous plumes. Its leaves are strongly veined and grow luxuriantly. Its seeds are very small and shining. The plant bears its plumes of flowers proudly, and well it may, for it is a near relative of the aristocratic rose. But it is through its early rising habits that we know it best. Long before sunrise, between the hours of 3 and 5 o'clock in the morning, it opens its petals. Naturally it gets sleepy before the other flowers, which has given the goat's beard the other common name of "go to bed at noon."—Philadelphia North American.

Insect Travelers.
Ship cargoes are often responsible for the introduction of quite new species of insects in different lands. Banana bunches often hide poisonous reptiles and insects which travel long distances, only to bite or sting the hand of some receiver of fruit. Often they escape alive and breed their kind. Many venomous snakes have thus been introduced into lands where none existed before.

Strange creatures have been imported on the blooms of orchids, and West Indian insects have traveled in Easter lily blossoms. Destructive moths migrate in fruit ships.
Flying insects often follow ships. One curious case was that of a vessel from the tropics followed by a swarm of butterflies. Out of sight of the shore, they hid in the cabins and holds, emerging forty days later when the ship reached England. Thus originated quite a new species of butterfly in the British Isles.

Good Memory.
"Has your wife a good memory?"
"Splendid. We've been married twenty years and she's still reminding me of all the promises I made when we were courting."—Detroit Free Press.

A Sign.
"Do you think that Hoggins has any sense of humor?"
"Why not? He told me yesterday that he enjoyed being alone with himself."—Judge.

Old Dutch Custom.
In many Dutch villages and towns the chief door of a house is never opened except on the occasion of a funeral or of a marriage.

To complain that you have had your leg pulled is a lame excuse.

Habeas Corpus Suit
A habeas corpus petition has been filed in County Clerk B. O. Horton's office by Hugh Miller. The plaintiff is confined in the county jail, having been sentenced there by Mayor R. C. Bigbee, on a charge of intoxication. A fine of \$7 and costs was imposed. Plaintiff says he is unjustly restrained of his liberty and seeks his release.

Asks \$5,000 Damages
In common pleas court on Friday morning the court and jury resumed the trial of the case of Horace Tharp vs. Irene E. Miles, which had been commenced on Thursday. Plaintiff brings the suit to recover damages for slander, alleging that the defendant told several persons that plaintiff's hay from a farm in Jersey township in this county. Damages are asked in the sum of \$5,000. Defendant denies the speaking of the words alleged in the petition. At 2:30 o'clock this afternoon the jury returned a verdict of \$900 for the plaintiff.
